## A NEW HONORARY GUIDE

### The King of Bhutan new Honorary Guide of the Raelian Movement

His Majesty King Jigme Singye Wangchuck, King of Bhutan, has been awarded the title of Honorary Guide of the Raelian Movement for his admirable decisions which are examples for the whole of humanity for more peace and love.

The support of RAEL and the 60,000+ members of the International Raelian Movement was sent to him today for his actions and wise ruling, particularly the priority he gives to "Gross National Happiness" instead of economic growth, his decision to make the Kingdom of Bhutan the first non-smoking nation, the protection from cultural pollution by tourism, his offer to give up his power as supreme ruler to his people who, loving him so much, voted democratically to keep him as their ruler.

King Jigme Singye Wangchuck, King of Bhutan

Maitreya RAEL who is about to give his annual Asian seminar in Tokyo, declared today: "Bhutan, thanks to its wonderful King is the most beautiful example in the world of what this planet needs: giving priority to a culture of "being" instead of a culture of "having". A culture of "having" creates wars, genocides, pollution and chaos through the illusion of happiness coming from outside. A culture of "being" creates a real happiness coming from inside, peace, and harmony."

The last Honorary Guide nominated was Warren Buffet following his decision to give his fortune to charity to help improve education and health in the world.

## EUROPEAN SEMINAR

Yes, it was also the best ever!

What a fantastic seminar!!! It has been raining every day!!!.... J

No joke, we were so happy to be together and to receive the amazing teachings of our Beloved Prophet that we would have faced any tornado with the same undisturbed pleasure!

We were almost 400 in this special resort in the Slovenian mountains. About 40 of us were there for the first time. One newcomer approached me on the last day and told me with her smiling and shy face: "What a great brainwashing!!!, I loved every moment of it and will recommend it"... eh eh eh, yes, brainwashing isn't possible, except by oneself if one

View from the seminar place....

decides to do so and she decided to make up her own mind after listening to the first lecture of our spiritual leader RAEL....

Here are a few of His words, taken from notes, just to give you a glimpse of what you missed ;-)

*"Your synapses are flowers that you grow in the garden of your brain. In this garden, everything grows, the most beautiful flowers and weeds. You have to select the seeds. To have a garden full of orchids, you have to decide it, you have to choose it, you are the gardener. Your brain will be happy whatever grows in it, it will be happy with a jungle of weeds. Do not blame anyone for the state of your garden..."*

*"To have spirituality goes along with being joyful and laughing. One cannot have spirituality and be sad"*

*"When one doesn't use his/her consciousness, it shrinks and then one brings out the little national flags J"*

*"Who are we? We are the dream of the Elohim. We are an impossible dream. We are the realization of that dream - in their image. All what men can dream of can be achieved... This seminar will help you to dream."*

*"Christopher Columbus couldn't imagine that one day we would be able to cross the Atlantic Ocean in 45 minutes. Let's dream of the unimaginable. Let's think the unthinkable"*

*"Happiness disturbs those who are unhappy. We will help those who have nightmares to dream"*

*"Your gesture, the way you move affects your thoughts. One cannot have a refined consciousness and move without refinement. The macho human being is the least refined of all the creatures. To be feminine is to be non-violent and full of compassion. A high consciousness is therefore refined, feminine and not macho. Could you imagine Gandhi talking in an unrefined way?"*

The Prophet Rael touched us every day with his unique teachings. It is hard to point out one aspect that would be stronger than the other as everything was so powerful and complete. But I shouldn't forget to mention this strong statement that we all kept in mind...

**"Each time you have conflicts with someone or with yourself, you betray the Elohim"....**

We all had a hard time to leave the premises on Sunday afternoon after the transmissions. The night before we had an exceptional New Year's Eve celebration with a count-down and a big cake for all of us... so much fun for all...

After the transmissions, our Beloved Prophet mentioned the last telepathic message he received from our Creators as it usually happens on August 5<sup>th</sup> of each year: "Our priority for diffusion should still be in the USA and in China and.... Humanity's chance of self-destruction has increased, it is now at 90%". He reminded us to focus on the remaining 10% chance of saving it and to apply what he taught us in order to be successful in this mission, in his mission that is now ours.

## Nominations

On the last day of the seminar, 6 new guides were nominated:

**Clemence Linard**, from France

### Bulgaria

The Elohim's Message In A One Page Article In The National Bulgarian Newspaper

*By Galiana Georgieva, in charge of Eastern Europe Countries*

Hi, my name is Galiana Georgieva and I have being a Raelian for 2 and a half years. I live in Las Vegas, NV in the USA but I am from the small town of Rose on the Danube River in Bulgaria. Ever since I became Raelian, I have dreamed of bringing our

Prophet's Message to my home country. It has also been the dream of another Bulgarian Raelian, Nedo, who lives in Canada.

We have worked together during the past year to translate the Raelian website into Bulgarian as well as the first 2 books, and we are really happy that the Bulgarian Raelian Movement is now represented on the internet! We thought that now was a good time to do a lecture in Bulgaria's capital, Sofia.

Nedo put me in touch with a well connected man in Sofia by the name of Oggie, who helped me (though he is not Raelian) with the organization and promotion of the conference on June 19th, 2006. I also received much help and support from my Bulgarian childhood girlfriend who still lives there and who has become very curious about our philosophy.

In the end, 30 people came to the conference and they were all invited to download the Messages from the website (since they are not printed yet). Most of all, Oggie introduced me to a reporter for the Trud Newspaper, our national paper. This reporter writes exclusively about Extraterrestrial related stories in a page of the Trud dedicated to this. The article was detailed and faithfully related the info I gave the reporter. It was most respectful and announced both the European Seminar in Slovenia and in England. (The reporter insisted on being regularly updated on new info about the Raelian Movement).

This newspaper is the largest in the country and this media opportunity was priceless to inform a large number of Bulgarians of their true origins. It felt so good to bring hope and light to my country because I could feel how much they need it... Thank you Elohim and Rael, to have given me the privilege of offering this precious gift to the people of my home country.

## Clitoraid-Korea

On July 31st, Korean Raelians hosted a unique march to protest against the circumcision of clitoris in the world, especially Africa. The march was hosted in the street Insa-dong of Seoul, Korea. The street is the most famous tourist route and also very popular among young people in Korea.

Some Raelian women, who made up themselves as black women and dressed with semi naked costumes, led the march dancing on African rhythms. About 50 Raelian members participated in the march, and they gave out many flyers to inform about our philosophy and the campaign to adopt a clitoris that has been initiated by our Beloved Prophet.

It was a sunny day after a continuous long and boring rainy spell, so the street was full of a huge crowd. The event surprised hundreds persons, and many people had a great interest and were moved by our campaign. Our march was covered by so many professional and amateur photographers who followed us all the way.

At the climax of the march, we proclaimed a statement about who we are, why we are here, and what the "adopt-a-clitoris" is, and why we should help African women, etc. Among the crowded persons, we Raelians were able to feel the reason why we live on the planet, again. These experiences made us stronger and stronger. They helped our consciences to be firmer. In that moment, we were a true light at the right place and the right moment.

Let us give great and endless thanks to our Beloved Prophet and the Elohim.

## Clitoraid America

Sylvie Chabot is in charge of the Clitoraid Action in Canada. While traveling through New York she took advantage to meet Betty Dobson who is a pioneer in the sexual emancipation of women in America and published an article in the last Playboy Magazine entitled "Vulva Power".

This is what she tells us:

Saturday, August 5th was one memorable day for me as the famous Betty Dodson agreed to meet me to talk about the Clitoraid Project. The photograph gives you an idea of the atmosphere in which this meeting took place... Oh yes, Dr. Betty Dodson agreed to support the project Clitoraid and we have already developed several ideas together.

This lady is 77 years old!! Look how radiant she is - Her youth! Her energy! Quite simply a sexually fulfilled woman, without taboos or guilt, Betty Dodson is just as convinced as we are that women have a great role to play in the survival of humanity and that begins with sexual fulfillment.

Let's remember that Betty Dodson came to Montreal in June 1993 to take part in our conference "Yes to Masturbation" with Daniel Chabot and our beloved Prophet. It was a great media event in Montreal. Betty has an excellent recollection of it and tells me that no other organization had invited her to speak publicly about masturbation. Our applause made her quiver with pleasure, she still vibrated when she spoke to me about it. She loves our Prophet and supports his actions. We will hear more about her in the projects of Clitoraid.

## A Raelian Seminar For 500 Mexican Students?

The Message of our Creators makes us dream and want to always fly higher. Daniel Turcotte, our dear Guide, asked the Latino countries to organize a seminar in which 500 students could attend. The country which will succeed in bringing together these students in the same place will have the privilege to welcome our Beloved Prophet and his priceless teachings.

Daniel's dream has become a goal which we would like to reach in Mexico very soon. We want to be the first to welcome our Prophet for a Latin American Seminar!

On the left – Luis Carbonell Landa

In order to realize this dream, we asked for the support of the Governor of the State of Veracruz, Lord Fidel Herrera Beltrán. To do this, we met the Director of Religious Affairs of the Secretariat of Mexico, Lord Luis Carbonell Landa. Let's remember that we had contacted the Governor after he witnessed a significant wave of UFO's during a public activity, last year.

Congratulations to the marvelous Raelian team of the State of Veracruz, which supports the beautiful and unrelenting Gaby Reyes, (in the center), and our brother Professor Norberto Chavez.

*To be continued...*

## Meanwhile

The magazine "Los Grandes Misterios Del Tercer Milenio" published a five-page article written by the journalist Yohanan Diaz who had already interviewed Norma. The five pages were dedicated to the Raelian Movement.

He wrote about the Message and the five points including the Cloning process, the cloned babies, Brigitte, The international Raelian Movement and the Embassy.

Although the article is entitled "¿La Clonacion del ultimo Profeta?, La mentira de la Clonacion Humana", it is very good and complete. He presents the information without any personal opinion.

## Another success in Peru!

The dynamic National Guide of Peru, Enrique Abanto, was in Arequipa (the second most important city in Peru) on August 2<sup>nd</sup> to give a public conference in which a hundred people participated. It is thanks to the person in charge of this area, Johnny Mamani Leon, that this conference was made possible. Several books were sold and the interest for the Messages was felt from the beginning to the end of the conference.

Thanks to national leaders unlike any others, the Movement develops better and better in this part of the world!

With all my love,

Daniel Turcotte  
*Continental Guide of Latin America*

**A text dedicated to our Beloved Prophet by Kimbangu as read during the European Seminars in Rogla.**

When I am in love, all my being changes  
Just like a permanent celebration, where habit is erased to re-awaken new things and amazement in me  
When I am in the presence of the man in white  
When I feel his teachings  
At the time when he addresses the crowd  
Sharing his silences and his prayers  
Traveling in his meditations  
Feeling his glance on my self...  
I am like a lover of a symphony of infinity  
The Beloved One for me is like the most beautiful of Beloved Ones  
So my inner Eloha is delighted and enjoys life  
All is sparkling,  
All is lucid, clear, easy...  
Nothing is stained!  
There is only one incredible finesse: simplicity  
The truth bursts out  
The dream is carried out  
Hope is displayed  
And the promise becomes eternal...  
Alone I then set-off towards the sky to admire the Earth and to wish it paradise...  
When the love of the Prophet is in me, no need to speak or write  
Just the desire for silent loving with only the stars in space as company.

*Kimbangu Mundele*
