### HOMAGE

You are the reason why I stay the leader of the Raelian Movement... Because of your face, because of your smile, because of your love

Rael, August 6th, 65 aH

## WORDS OF MAITREYA

**DURING THE FIRST MEDITATION IN KORINDO, THE NEW MEDITATION CENTER NEAR MAITREYA'S GARDENS IN JAPAN.**

### **Presenting the meditation center:**

That is where the light of Elohim comes, that's why this place is called Korindo. which means, for the foreigners who don't speak Japanese, 'where the light comes from the sky'.

It is indeed the place where the light of Elohim comes. This is a holy place. This is the first real place on the Earth dedicated to the Elohim.

For me, it is a big emotion and a big pleasure to have it made in Japan, the country of Hiroshima.

In my heart there are two things, Elohim and Hiroshima. Because they are linked together.

You are lucky to be Japanese, because you are connected to Elohim.

I hope that one day we can make the Embassy in Japan, it is an impossible dream!

This place is so beautiful, it was only a dream. When we came here at the beginning, there was only some dirty land, and I came and I said ; "Wow! That is the perfect place. We can have meditation with the trees, the water, the grass, that will be the best place for our meditation center".

Thank you Elohim for all this beauty. The grass here, the original grass. The grand grand grand grand grand grand grand grand great great grandfather of this grass was created by the Elohim. Like us.

There are beautiful dancing Bamboos. Look at the bamboo dancing in the wind. This is so beautiful, a creation of Elohim. The fish in the lake too are creation of Elohim. Everything, we are connected with everything alive around us. With the stars, with everybody here.

We are one. We are one with everybody and everything, We are one, with the translator, we are one with the musician, we are one with everything. That is why I hope everybody will come in October to celebrate this oneness with the Elohim, with infinity and the universe. We are one with Yahweh. We are one with Elohim, they are looking at you!

They are in your heart, everyday of your life, and when you feel it, then you are stronger. Never forget the Elohim! Never forget that you are very important for them.

6 billion human beings on Earth but only very few Raelians, very few.

120 million Japanese, something like that and maybe 5000 Raelians, very few.

So each of you is very important. The Message is alive thanks to you.

## Happiness and Death

Happiness and death are connected.

We all need to remember we will die. It's in our genetic code. Even Elohim die, they live a little bit longer, 700, 800 years, just a little bit longer, but they die too. Thanks to their technology they can have another life. We will have the same but we will die. Maybe we will not be recreated, maybe we will be back to dust. And we know that from the first second of our lives. When the ovule and the spermatozoa come together, already we are programmed to die. When you look at a cute baby, it is going to die.

So the clock has a countdown - 9-8-7-6-5... and one day you die. You must be sure of that. You never know when, but it's coming. If you think of death, and we all think about death, we can be very sad and we can have a full life of sadness and of being depressed. That means you will die after a whole sad life, which is very stupid. Or you can think about death and say 'wow, I'm going to die, so I'd better laugh'.

That's why death is connected with happiness. If you use your consciousness, the more you are sure to die, the more you must laugh, because it is so funny. It's very funny, it is not sad.

Many people suddenly hear the doctor say "You have a cancer, you will die within 6 months". At the beginning it is a shock for them and after they enjoy everyday of their lives, every second, because they know there is only 6 months left.

Sometimes the cancer disappears but thanks to it, they have started to enjoy life. Do you need a doctor to tell you that you have 6 months to live to be happy?

We all have a limited time to live, so it's better to be happy without cancer, better to be happy right now. When you do your meditation in the morning remember to say "soon I am dying!" Yes, soon is one year, 10 years, it's soon. There is a countdown 9-8-7-6... 0 dead. We are all in a countdown.

We'd better laugh then, it's so funny.

We don't know how long is the countdown. It can be after 10 seconds. For me too, my heart can stop in 10 seconds. If I really could know that I would die in 10 seconds, what would I do? Should I cry: "Oh no, I don't want to die!" , then I would live 10 seconds of bad feeling!

So if the Elohim tell me, Rael, you are about to die in 10 seconds, I will laugh! That's what we must do.

Ten seconds of perfect happiness, and laughing ten seconds is too short, you have to start now!

So you have to think about death to create more happiness. Always realize that the best way to be happy is to think about death. It is the most powerful way because if we are to die soon, we'd better enjoy life.

Do you enjoy life?

The best answer to death is laughing.

If you don't think about death, then you enjoy life less.

When you realize you have a limited number of minutes and days and years to live, then every second becomes important.

And what is the most important second of your life ? Right now!

Right now, and right now, and right now. Every tic tac. every tac of the tic, and tic of the tac, and tac of the tic is important. Every second.

Enjoy, laugh, our philosophy is happiness. Enjoy, and joy, enjoy, and joy.

## About Songs

*Maitreya asked Lotus to sing one of her songs and commented:*

“Nothing makes us more happy than songs and connects us more to the Elohim. We are lucky enough to have Lotus writing everyday new songs for Elohim, Yahweh, Infinity, everything. It’s better than my speech. Through music we feel infinity, and we express our love to Elohim.

I love her last song because it’s a very happy song. Some people make the mistake of thinking of Elohim in a Christian way-praying them - like God- and crying”

No! This is for Christians, they love suffering they love pain. The real Christians should not be like that because Jesus was happy. Everybody thinks of Jesus like somebody suffering and crying. No! He was laughing everyday.

How can you be the son of Yahweh and not be laughing everyday? But people love this image of pain and suffering. I saw Jesus on Elohim’s planet and he’s so funny. I am funny but maybe he is more funny than me. We laughed a lot together.

So that’s why we must always think of Elohim in happiness, like happy beings.

That’s why they created us in their image, that’s why we love laughing.

And thank you Lotus for writing this Happy Elohim song. I love it.

## OUR CREATORS ARE HAPPINESS

*Sunday telepathic contact by Maitreya, August 1st, 64, Japan*

*On that day, Maitreya asked the participants to send love to all the creations of Elohim, including our enemies as if they don’t like us it is because they don’t know us.*

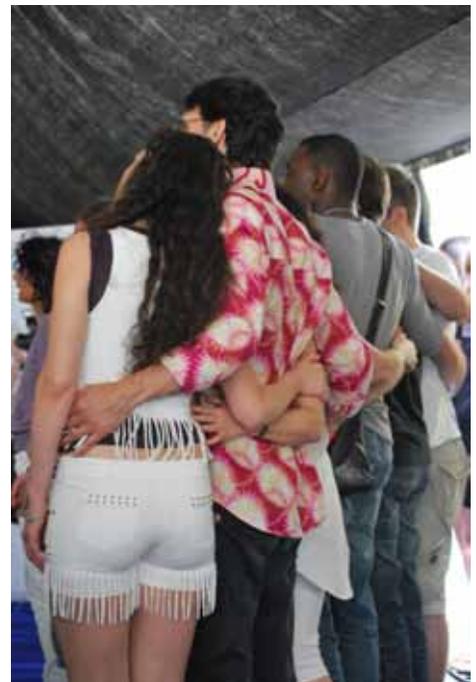

*He explained:*

We must love also people who don’t like us, we must love our enemies more than our friends.

We must love our friends more than our family, because we didn’t choose our family.

We don’t chose our father, we don’t choose our mother, but our friends, we choose.

So we must love our friends more than our family.

And we must love our enemies more than our friends.

Like that the whole world becomes peaceful.

Then send love to our creators the Elohim, and we send love to everything that is alive.

The trees, they have consciousness, and the trees are alive like us, they are also the creation of the Elohim.

All the animals, everything, the whole universe, it's time to send love to everything.

Inside ourselves as well. We have 10 billion cells in our body, but 1 thousand billion microbes and viruses which are part of us, and which are important for our health.

That's why antibiotic are bad because they kill everything.

But we have 100 times more other living things inside us like microbes and virus, than our own cells. They are on our skin, inside our gut, inside our blood, everywhere and they are very good for our health.

We are not a human being we are a population. Can you imagine: for 1 cell there are 100 microbes and viruses. And all these things live together and make us healthy.

That is the creation of Elohim.

So send love to all these things alive inside yourself. We are full of aliens, but good aliens, which are part of our health, part of our consciousness. Without them our brain cannot work properly.

So thank you Elohim for creating all this.

You have to visualize the Elohim, when they came to create life on Earth they were not serious. Elohim are never serious, always laughing kidding, making jokes, so funny!

Always laughing together.

Visualize the Elohim creating life in their laboratories, they were laughing like crazy!

That's happiness, our creators are happy. And when we are happy, we make them happy also.

Your happiness is the best gift to Elohim.

...

***I want you to remember how lucky we are, to not have a religion with a god of fear, a god of sadness and blood but our creators. We are respecting and loving these creators of happiness, laughing, joy.***

***So please remember that the Message brings you happiness and joy and you live it fully when you laugh. We were created by laughing beings, the Elohim.***

***Never think about them as 'oh my God' no that's for the primitive people. Our creators are happiness.***

## MORE THAN HUMAN, WE ARE CONSCIOUSNESS

*Maitreya's words during the Sunday Contact on July 25th64, Narita, Japan.*

Thank you Elohim for being together. Without Elohim we wouldn't know each other. We are together only thanks to them. Think about how different our lives would be if we had never read the Messages.

Where would we be? What would we be doing? The Messages changed our lives. We feel connected.

Open your eyes and look at the beautiful smiles around us. All these people whom we know thanks to Elohim.

Without Elohim, this girl would be still in Korea. This girl would still be in Canada and I would not be in Japan. So it's all thanks to Elohim. And this beautiful singer would be in China.

So we know each other thanks to Elohim and that may be one of the most beautiful gifts of the Messages. This applies not only to the people in this room, but also to the people on Internet watching us. The Raelians move, travel, change place, change countries. They are not anymore attached to the country where they were born.

The Messages make us free. The Messages make us feel we are not Japanese, French or American.

**We are human. More than human, we are consciousness.**

So we feel one with every country. For us there is no border, no separation and we feel part of not only the Earth but the Universe.

We are still very primitive. But as well as Korean come to Japan, Canadians come to Japan, Japanese go to America, we travel everywhere. We can choose freely in which country we want to go. Soon we will be able also to chose which planet. As well as we can move from Korea to Japan, we will be able in the future to move from this planet to another one, to change life, have new friends in many many different places in the universe. We have so many new friends thanks to the Messages on this planet.

But we have also new friends on another planet, The Elohim.

And we will have new friends on many other planets. Think about all the people we can be friends with, and we are with other planets. How many ?An infinite number.

We can travel forever and make new friends forever. And we all have the same philosophy. Because when we reach a higher level of consciousness, every civilization in the infinity of the universe, have the same supreme religion.

Infinity, that's the supreme religion of the Elohim, and on every advanced civilization in the Universe.

So when we wear proudly the Raelian symbol, we are at the same level of the most advanced civilization in the Universe.

Primitive people are attached to primitive religion. Christians, they love blood. They always represent Jesus with blood, what a primitive religion.

Muslims are very fanatic with very limited thinking.

We are so lucky, our religion is unlimited.

Christian, Muslim, Jewish, they say 'my religion' and they all think they must convert other people to 'My religion'. For the Raelians, no. We have Infinity as religion. We look at the stars and we say that an infinite number of people have the same religion as ours : the religion of infinity, where there is no God, no soul, the same love for oneness of universe.

Primitive religions separate us from others while the supreme religion, Infin-

ity, makes us one with everybody, and especially of course with Elohim our beloved creators. Thank you Yahwe for elevating us to this supreme religion, a religion without God, a religion which unites every being in the universe.

We can meet many different beings, not only human ones, when we will be able to travel through space, soon! Some may look like insects, or bears, any kind of things you can imagine.

But even if they look like spiders or grasshoppers, or bears, they are advanced, they have all the same religion.

So expect one day, when we will be able to travel through space, to contact very advanced civilizations of spiders with the same symbol.

And that what makes us one with every advanced being in infinity.

In the same way that when we meet Raelians in other countries, we say 'ah the Symbol, he is Raelian', when we will travel through space, we will meet strange spiders with the same medal and say 'Ah your religion is infinity?' Yes.

Then we are friends with every living being in the universe.

That is why this religion makes us so much more advanced. Raelianism is the supreme religion, there is nothing more advanced, because nothing can be bigger and higher than Infinity.

Can there be something bigger than Infinity? Think about it. It's not possible.

Even double Infinity is not possible. 10% more than Infinity is not possible. 1% more than Infinity is not possible.

Infinity is Infinity and this symbol is absolute Infinity

Thank you Elohim for this teaching.

## **WHEN LIFE IS DIFFICULT, THINK ABOUT THE SMILE OF YAHWEH AND READ THE MESSAGE**

*Maitreya Sunday contact, July 18th, 64 Narita, Japan*

We need to feel the love of Yahweh in every second of our life, because that is very important to really feel how much Yahweh loves humanity. Feel it every second of your life. Feel it in every little plant you look at, in every smile, in every little animal, you can see the smile of Yahweh guiding your life.

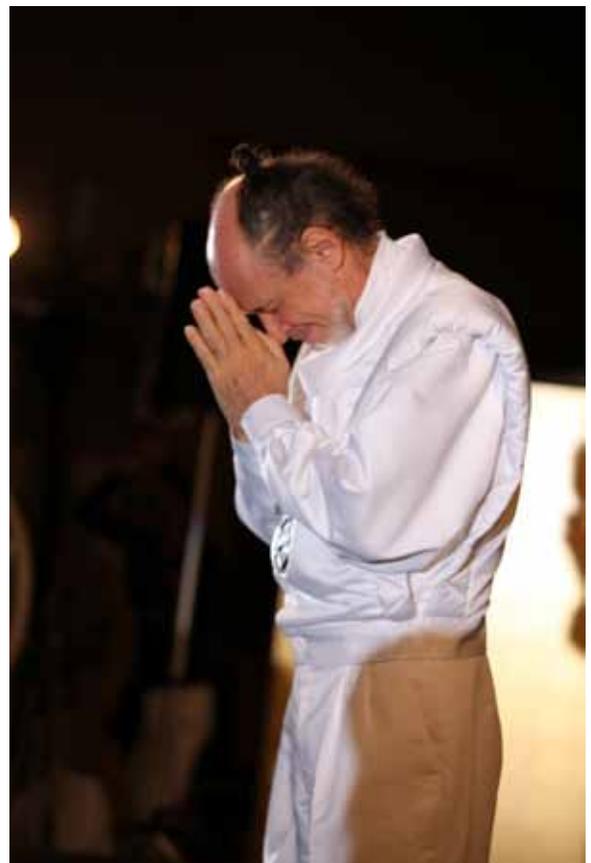

Every time you have a decision to make, and your life is to make decisions, every day.

When it's difficult, think about the smile of Yahweh and read the Messages. You will have the solution naturally coming for this decision. If you really read regularly the Messages, this guidance of Yahweh is everyday with you and then you know why you are alive. The Messages guide us in every aspect of our lives. In your professional activity, in your sexual life and of course, specially in your philosophical life.

You must always feel the love of Elohim.

But Elohim is plural. We say the Elohim, it is a population, and Yahweh is one person.

You cannot visualize the face of a population but it's easier to visualize the face of Yahweh. It's one person, one person who loves us. When

part of Elohim were saying there is too much violence on Earth, Yahweh was the one saying “yes but some people are good”.

After creating life on Earth, they saw that human beings were killing each other, were violent and part of Elohim said that we are criminals, we are bad. They said: ‘we created people who are violent, we must destroy them.’

These Elohim are not bad. Satan loves us also. Satan says: “the human beings are suffering too much, we are wrong, we the Elohim made a mistake by creating life on Earth. So we must stop this life because they only think about war and violence.”

Satan is full of love, he wants to stop our suffering. He says: “let’s destroy life on Earth so there is no more violence, no more war.”

But Yahweh says: “look look, even if a majority of human beings are violent and killing, some people are good.” and adds: “Even if there is only one good human being on Earth, we must save humanity.”

Because one person can change the whole planet. If one human being can be good, then all human beings can be good.

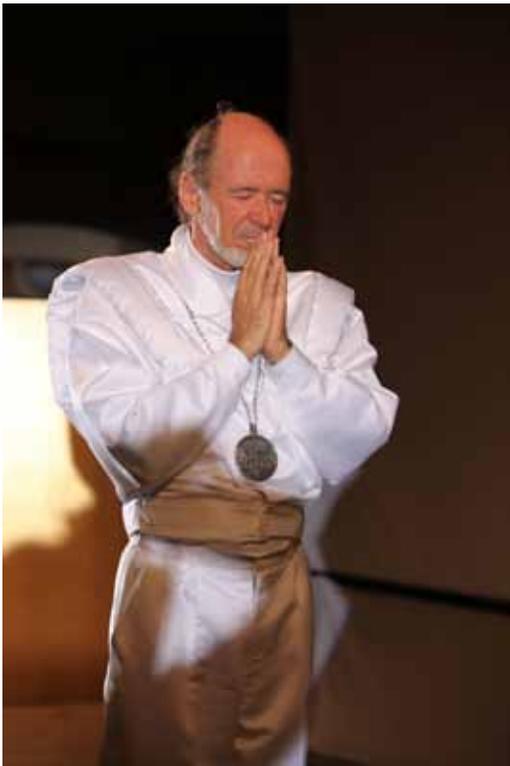

Will you be this human being ? Yes, you are! You Raelians, you are.

When the Elohim look at you they say we are right.

The more Raelians join us and promote our value of peace and non-violence, the happier is Yahweh and the more Satan is back to hope, thinking that maybe Yahweh is right, that some people are good enough to change the life on this planet.

So if we change this planet of peace and love, Yahweh will be very happy but Satan also. Because he says it’s impossible, but if we succeed, he will be crying of happiness.

*After a song to Yahwe made by Lotus, Maitreya added:*

When you pray Elohim, when you send your love, always make a little silence after because you will feel love coming back.

You send your love by singing Yahweh, and them make silence. You will feel love coming from the sky. Because right now the Elohim are looking at you. Right now, individually.

And you should, right now feel the love of Elohim coming at you. Close your eyes and feel it.

It’s coming from the sky. Wherever you are, love is coming from Elohim on your head.

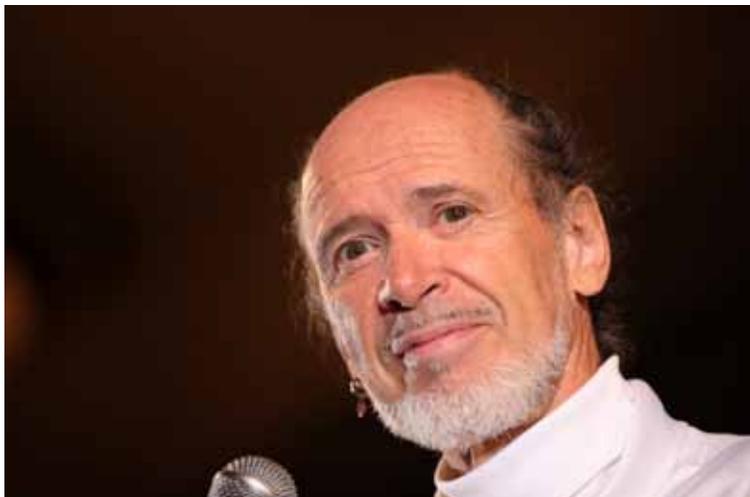

Move your head a little bit up, so you can feel it on your forehead, like a wind of love coming from the sky. Thank you Elohim, Thank you for your love.

When we pray the Elohim, when we pray for Yahweh, we are connecting ourselves to infinity.

Because it’s infinity expressing itself through us. Infinity expressing itself through Elohim.

And when we will create life, it’s infinity that we will express.

We are one with infinity.

## ON AUGUST 6TH CELEBRATION, MAITREYA REMEMBERED HIROSHIMA.

Today is a beautiful day and also a very sad day, because, as you know, it is the anniversary of Hiroshima bombing and I want you all here in Japan but also all around the world to remember Hiroshima forever.

August 6th is a beautiful day for us but I always remember what happened. There were children playing, lovers in parks choosing the name of their future baby, women chatting, birds, butterflies, trees. They were all having a beautiful day, the weather was beautiful, sunny sky, hot like today and suddenly an atomic bomb fell and killed 300,000 people.

War is always bad but at least there are international

laws that regulate wars.

Sending a bomb on an enemy's army is ok according to these laws because it is fighting between armies but sending a bomb on a city is forbidden. War is between military, it is stupid but it is between military people. International laws explain very clearly it is forbidden to target civilians.

Hiroshima was not a military target. It was a city full of children, women and peaceful people. In one second, about 50,000 people died immediately at the center of the bomb impact. Their bodies became black like coal right away in a circle of 500m diameter.

Up to 1.5km from the center of the bomb, every piece of paper started to burn from the heat and the people have been so badly burned that they died within a few hours.

Those who looked at the beautiful huge light generated by the bomb had their eyes starting to boil, becoming liquid. In a circle of 2km, all lost the capacity to hear and became death.

The birds flying started to burn because of the heat, the feathers were on fire. People report birds becoming balls of fire. That's Hiroshima. We must never forget that.

When Hiroshima happened, the Elohim cried, Yahwe cried, Satan cried also and he said ' You see, I told you. Human beings are bad, they can kill 300,000 people in one second!'

Everytime August 5th arrives, I think about it and sometimes I lose hope because if some human beings can do that, Satan is right.

It was better not to create Humanity.

Satan is not bad, Satan loves peace, non-violence. When he sees the creation, when he sees the violence, he says : "we Elohim are responsible for Hiroshima. If we didn't create life on Earth, Hiroshima would have never happened."

So he is feeling guilty because of us and I understand that if you have rocks and sand, there is no pain, no human beings and no Hiroshima, so it's better. That's what Satan thinks and I understand that.

There are two individuals who are the worse criminals on Earth. The first one is the one who gave the order to send the atomic bomb. His name is Harry Truman, he was President of the USA and he gave the order. This man is the worse criminal against Humanity of the whole history of Humanity.

The number 2 is Paul Tibbet, the pilot of the airplane, the one who sent the bomb.

In Hiroshima, they should have a big sculpture with these 2 individuals surrounded by women and children pointing their

finger at them because we must never forget as it is the only chance that it never happens again.

Will we prove that Satan is right by doing it again?

Right now, this stupid Humanity is making new atomic bombs every day. If they make them, they will use them as it is what you normally do when you produce something and that's terrible.

Hiroshima is the past, we cannot change it but we can be a little more intelligent for the future.

By repeating the name of Harry Truman and Paul Tibbet, we can make the leaders of the world feel the guilt they will have if they do it again.

There is a Hall of fame for baseball players, we should create a Hall of Shame, we should do it on a website where we would remember all the people who were criminals for Humanity, forever. The people who want to do it again will think twice.

I love America but they think they were right to do it, they don't feel guilty about Hiroshima. They say 'yes it's too bad, there were civilians who died' but they add that they saved the lives of more military.

Media say that the worse criminal against Humanity was Adolf Hitler or Genghis Khan or Saddam Hussein. Not at all, they never killed 300,000 civilians in one second. Adolf Hitler killed many people but never 300,000 in one second.

So the worse criminal against Humanity is Harry Truman, President of the USA.

Paul Tibbet as second, because he was a human being, he could have said 'No, I don't want to kill 300,000 people in one second.' But he did it.

We must be sure that forever we remember it.

I lose hope when I think about it. I think about it and I say Satan is right, Humanity doesn't deserve to be alive.

But then I look at you, I look at Lotus when she sings and I say "wow Humanity can be different".

If only one human being is good, this Humanity is worth being created.

When I see Gandhi, Buddha, peaceful people, when I see your faces, then I say "yes, thank you Elohim for creating life on Earth" and then my hope comes back.

If you were not here, I would quit the Raelian Movement. I would say: "sorry, you are right Satan, I don't want to save Humanity, it is not worth it" and I would quit.

But I look at you, you are the reason why I stay the leader of the Raelian Movement, because of your face, because of your smile, because of your love.

As long as I can see these faces, I will continue my mission, because of you.

I love you and the Elohim love you.

## ABOUT TAIWANESE SCIENTIST WHO CONFIRMS INFINITE UNIVERSE

*Maitreya didn't come to the European seminar this year but the participants had the chance to listen to Him twice in a video conference.*

*Here are excerpts of what He said on the last day of the seminar:*

“Yesterday came some historical news: an internationally recognized scientist just published a theory that replaces and refutes the Big Bang theory. He explains that the universe can only be infinite and that the observed movements correspond to series of expansions and contractions of the universe.

The Message is therefore confirmed once again by a scientist, with whom I hope we will be in contact. He has obviously many opponents in the worldwide scientific community: all the big-bangers, the Darwinians and the evolutionists who do not want a new theory to replace the Big Bang which is a kind of religion like Darwinism is.

They say that his theory does not explain the universe's background noise measured by the radio-telescopes, which his opponents use to justify the Big Bang by saying it represents the Big Bang's echo.

I hope to be able to meet this Taiwanese scientist and give him some hints. He says great things that agree totally with what I taught you and that comes from the Elohim's Messages, like for example the correlation between space and time.

Remember what the Messages say, time is inversely proportional to mass, which means that the further one goes into the infinitely small, the faster time flows, and the further one goes into the infinitely large, the slower time flows. He applies this to our universe and tries to make calculations to explain this background noise. I would like to meet him because we bring a very simple answer.

He is extremely open minded since he says that the universe is infinite, but he does not know how to explain the background noise coming from the edges of the universe and he is working on it.

Others say that this background noise is the echo from the Big Bang, which is totally stupid because in order to have an echo, there needs to be something to reflect against.

Our explanation is very simple and very logical: there is an infinite number of universes, and what we observe is not the echo from a Big Bang, it is the echo from the other universes which we don't see and which we can't currently detect. It will take a long time before we become capable of detecting them, maybe 25000 years, but they make noise for sure!

The infinite makes noise, there is infinite noise in an infinite universe. It will help him understand, as he has a more open mind than others, switching from a finite and limited universe to an infinite and unique universe.

The multiplicity of the universes is brought to us by the Messages and represented so well by our symbol, the infinite in space and time. It means that wherever you point your finger, it goes to infinity. I wanted to talk about this on this last day of the seminar because it's the most extraordinary part of the Elohim's message.

Wear the symbol proudly, no matter how people react around you. Wear it proudly because it makes us the most advanced beings in the universe. When we wear the symbol, we join the Elohim. Even better, we join all the consciousnesses of infinity, because every individual, every civilization in the universe, when reaching a high level of consciousness and science, which go together, eventually reaches the concept of infinity.

In the collective perception, there first was the village, the country, the Earth, which was flat (still is for some), then the solar system, then they discover the galaxy. After that, they

realize that there is more and they reach the still very primitive level of saying “there was a Big Bang”. And suddenly, the concept of infinity emerges. This symbol representing infinity exists in the infinity of civilizations and advanced species. The moment they reach the higher level of civilization is when they understand the concept of infinity in space and time, which obviously replaces all religions. Indeed, all monotheistic religions imply a god that has to be somewhere. Since that god is all-powerful, it can only be at the center of the universe, and if there is a center, then the universe is not infinite. From the moment one understands the universe as being infinite, there is no center anymore, therefore there can not be a god. As a result, all the most advanced religions are atheistic religions such as ours, religions of infinity. All advanced civilizations in the infinite space have infinity as their

religion and communication with infinity, as we are developing ourselves. All have a symbol that is very similar, if not identical, to our symbol because this is what symbolizes best infinity in space and time. We can therefore expect, when we travel to space very soon, to encounter beings who are not necessarily human, who might exhibit a diversity of shapes, but who will all have a symbol similar to ours. In the same way we enjoy recognizing Raelians in the street by seeing the symbol, we will meet other beings on other planets with the same symbol and tell them “Aha, your religion is infinity!”. They will recognize our symbol as well and we will immediately be on the same wavelength.

We can expect to meet non-human beings with very advanced civilizations who may look like spiders, or people with two heads or six legs, but they will have the same symbol which will mean they are very advanced.

This symbol of infinity is a universal symbol of infinity.

Wear it! When you are wearing it you are placing yourself at the same level as the Elohim. You are placing yourself at the same level as the most advanced beings in the universe.

Wear it! Not only it's the symbol of your religion which unifies, it's also the symbol of our science, the symbol of absolute science. Because there can not be a more advanced science than the science that allows us to understand and to feel infinity.

This symbol is more than the Elohim's symbol, it's the symbol of your consciousness, the symbol of absolute truth and that is what makes you beings of light, superior beings in the universe, joining the infinity of populations observing us who refrain from visiting us, saying “they are still killing each other over skin colors, let's wait until they make some progress”.

How are they going to evaluate our progress? When we all start to wear the symbol of infinity, it will mean that we are on the right track. This is precisely one of our missions as Raelians, to bring acceptance, love and understanding of infinity. To bring the Elohim's message as well, of course, but the Elohim's message allows us mainly to bring the Elohim's religion to people. Their religion is bigger than them and is infinity.

The Elohim are the messengers of infinity, I am the messenger of the Elohim therefore I am also the messenger of infinity, and you are becoming messengers of infinity yourselves by wearing this symbol and spreading the Messages.

Let's thank together Yahweh and the Elohim for allowing us to reach their level through the Message and the religion they brought us, an atheistic, simple and rational religion which makes us bigger beings. News and Views

## PRAYER HEALS

A team of medical doctors and scientists led by Indiana University professor of religion Candy Gunther Brown found in a study, conducted in rural Mozambique, that prayer brought “highly significant” improvements to hearing-impaired participants and significant changes to the visually impaired. The kind of prayer studied is called “proximal intercessory prayer,” or PIP — when one or more people pray for someone in that person's presence and often with physical contact. The study to be published in the peer-reviewed Southern Medical Journal says that there was a highly significant improvement in hearing across 18 ears of 11 subjects” and “significant visual improvements.”

Maitreya commented: *Prayer works, but not because people pray a god which doesn't exist, but rather because they send love, and positive energy to the sick person, and that helps this person to improve his health. It's a purely telepathic action, which is connected to quantum physic.*

### STEPHEN HAWKING WRONG AGAIN

Human race 'must colonize space or face extinction', said Stephen Hawking in an interview with the website Big Think. Professor Hawking said he was an optimist but the next few hundred years had to be negotiated carefully if humans were to survive. He says that unless the human race colonizes space within two centuries it will disappear forever.

Maitreya commented: *"One more time Stephen Hawking says stupid things. The very concept of colonization is a primitive violent concept which means attacking, destroying and creating genocides. Expending our civilization to other unoccupied planets is great. But colonization, which is connected with the genocides of Inca, Mayas, Caribes, American Indians, and so many other civilizations is a crime.*

### MAITREYA RAEI PREDICTS IMMINENT WAVE OF UFO'S SIGHTINGS THROUGHOUT CHINA

Maitreya Rael announced in a statement released early August that a UFO that appeared over the Hangzhou airport, forcing authorities to close that facility, is "just the beginning of a huge wave of UFO apparitions that will appear starting now all over China."

"These UFOs are the vessels used by the Elohim, our creators from space who were described in all ancient Chinese traditions, and who a long time ago had children with the Chinese," Rael said. "That's why the Chinese call themselves 'children from the sky.'

He added that the Elohim wish to have an embassy built to officially welcome them back to Earth and they would like it to be built in China.

"China is the most important country on Earth, not only because it has the biggest population but also because its culture and civilization have always been the most scientifically and spiritually advanced," Rael explained. "Thanks to this culture, China was almost totally preserved from the damage of primitive religions like Christianity and from other monotheistic, superstitious values. Instead, China has developed a very scientific and philosophically advanced society without the guilt caused by Christianity, especially Catholicism, and particularly thanks to the influence of Lao Tzu and Confucius, two of the greatest thinkers of history of humanity.

The Raelian leader went on to comment that China also has a government that is "politically closest" to that recommended in Messages given him by the Elohim, especially China's one-child policy for controlling overpopulation. "Communism, when applied with intelligence, is the best way to have a harmonious society," he added.

To illustrate, he pointed out that in China right now, capitalism is partially accepted on a provisional basis to reward those who are making the society evolve faster for the good of the entire population.

"What's more," he said, "China while at the same time becoming the most powerful nation on earth, has avoided and continues to avoid any form of colonialism." He explained that China could have colonized all of Asia long ago, along with Australia and beyond, since it was the first country to explore and circumnavigate the world long before Europeans did.

"But the traditional wisdom of China restrains it from colonizing other populations and perpetrating genocides as the Europeans did," Rael said. "Even with what will soon be the biggest and most powerful army in the world, China doesn't have military bases around the world to dominate others, unlike the United States, which has 180 bases worldwide to guarantee world domination."

He said that for all these reasons, the Elohim wish to have the embassy where they will land officially built in China. "Maitreya Rael also announced that the Chinese government's first reaction to appease the population will be to offer so-called

rational explanations for these UFO appearances, such as saying they are merely meteorological events or military tests or visual illusions.”

## GM IN THE WILD

Researchers in the US have found new evidence that genetically modified crop plants can survive and thrive in the wild, possibly for decades. A University of Arkansas team surveyed countryside in North Dakota for canola. Transgenes were present in 80% of the wild canola plants they found. They suggest GM traits may help the plants survive weedkillers in the wild.

Maitreya said: “ *There is no problem with that as all “natural “ plants are the result of scientific creation and genetic manipulations by scientific people, the Elohim, our creators. On the contrary it’s a beautiful trend which can see humanity, in a process of “Elohimisation”, modify, make more beautiful, and more harmonious and ecologically stable their environment. Wild nature is not always right and men can make it better through science. There are a lot of examples where a wild specie becomes responsible for the extinction of another specie without talking of desertification. Even if we, just for one minute as it is not true, accept the stupid theory of evolution, in this optic, man being a part of natural evolution, everything he does is automatically also part of natural evolution as man cannot in this case be separated of this process. In fact it is thanks to science, genetic and GM that men can make this planet a paradise, with enough food for all Humanity. Let’s modify genetically the whole planet so that there will be life and plenty of food everywhere. Using GM can, as it was already done, create plants who can thrive in the deserts and make it green again, trees that can grow in extremely cold areas, etc.... we can, thanks to GM, imagine all the deserts of the world disappearing and being slowly replaced by luxuriant forests. That’s what GM can do !*

### ANNE RICE

Maitreya has expressed his support to Anne Rice following her decision to leave Christianity.

Here is more about Anne Rice:

The “Interview with a Vampire” author, who wrote a book about her spirituality titled “Called Out of Darkness: A Spiritual Confession” in 2008, said Wednesday that she refuses to be “anti-gay,” “anti-feminist,” “anti-science” and “anti-Democrat.” Rice wrote, “For those who care, and I understand if you don’t: Today I quit being a Christian ... It’s simply impossible for me to ‘belong’ to this quarrelsome,

hostile, disputatious, and deservedly infamous group. For ten years, I’ve tried. I’ve failed. I’m an outsider. My conscience will allow nothing else.” Rice added a few days later: “My faith in Christ is central to my life. My conversion from a pessimistic atheist lost in a world I didn’t understand, to an optimistic believer in a universe created and sustained by a loving God is crucial to me,” Rice wrote. “But following Christ does not mean following His followers. Christ is infinitely more important than Christianity and always will be, no matter what Christianity is, has been or might become.”

**ARE MEAT AND MILK FROM A CLONED CATTLE SAFE? .... THE RAE LIAN MOVEMENT SAYS YES AND ANYTHING ELSE IS ‘A LOAD OF CLONED BULL’!**

*By Marcus Wenner*

Two years ago a farmer bought two bulls produced from a cloned cow in good faith and now everyone is in uproar, clamouring to eradicate any of their genes from the food chain! Shame on the British public for its outright ignorance, but more importantly shame on the authorities for miseducating the malleable public.

Lets get this straight, cloning simply copies living organisms, so if the original was good to eat, then so will be the clone

and its descendants. A protein is a protein, the very fact that the animal is alive should be a clue for the more alert among us that there is no poison!

In fact, just as GMOs represent the only hope of a sustainable food source for everyone for the next century, so will cloned food be essential to equitably feed the worlds exploding population. Cloning is the quickest and cheapest way to provide a breeding chicken for example, which survives jungle conditions, can fight local illnesses, scavenge food by itself, grow plump and large quick, and does not run too fast, so as to allow grandmothers in central Africa to set up a self sustaining food source. Thanks to this, they will be able to bring protein to their malnourished grand-children and be able to barter for other essentials and ensure a stable economy in the villages instead of flocking to the cities where life is even worse.

So why the confusion around the issue? One can only suspect there is an ulterior motive behind this disinformation. Could it be possible that the religious authorities are trying to keep us in the middle ages?

I put the blame squarely on the Pope for fear-mongering against science and cloning, as well as the new trend of tattooed eco-conservatives who don't really know much about the science, but are just against anything new, masquerading as hip-warriors pretending even to themselves that their Vatican-bred moralistic judgement is "there to help the planet". Their "green" disguise is black with the remains of those burned at the stake in the past for questioning their authority and red from the starved children who could have been saved with cloned and GM foods in the future.

What a bunch of hypocrites! In fact the Pope should be the first to encourage people to eat such products. What if the first Christians would have refused to eat the food that Jesus had multiplied on the mount on the basis that it was immoral or that mutations might have crept in? "No Jesus, we can't eat this, it might be poison, and what if it got into the food chain!"

Wake up Britain, don't let yourself be influenced by the usurper across the channel, reclaim your right to independent thought.

## CLITORAID WINS ITS CASE AGAINST THE PARISIEN

Clitoraid was heavily insulted in a French newspaper about 18 months ago and we chose to sue the newspaper and the journalist as it was not acceptable to be portrayed so badly.

The French justice took a long time to make up its mind, we lost at first then appealed to a 'cassation' court, got the right to appeal to a higher court and finally got justice, the newspaper being condemned to pay our fees and to publish the decision of the court...

## OUR RAE LIAN PLANET

### RAEL.ORG

Our main site's new look was launched on August 6th after months of passionate design and coding work of Cameron assisted by the translators who made it happen in many languages at once.

Make sure to visit it as new videos have been uploaded there and do not forget to advertize it to your friends ... and enemies and the whole creation :-)

## HAPPINESS ACADEMY - MEXICO 64

*By: Vicente Castillo*

Hello everyone.. my name is Vicente Castillo, I'm from Puebla, Mexico. Since the first time I heard about the Raelian seminars, I had the firm conviction of not missing the "Happiness Academy". I wanted to live this marvelous experience which opens our mind to the infinite and gives us the keys to blossom as human beings. Now I know that it was all worth it. Today I have the tools to make changes in my life and be more positive. At the beginning I was afraid of participating in the exercises and workshops, though, deep inside me I understood it was necessary to apply the teachings our Beloved Prophet brings us and that our Fathers Elohim gave him for us to find happiness.

All I lived through out the seminar was simply like a dream come true. At all times I felt natural and free to do all I wanted. I liberated myself from my insecurities and shyness. I felt myself blooming like a flower of consciousness.. I felt free..

I met Normita Toral there, who has had the privilege of being close to our Beloved Prophet; I felt that being close to her, was like having a little bit of HIS presence.

This Happiness Academy has been the most marvelous and fascinating thing I've ever lived in all of my existence here on earth. Thank you Fathers Elohim for your Son, your Ambassador, our Beloved Prophet who guides us with soo much love towards happiness, peace and love, non-violence and tolerance towards differences, no matter races, colors, religions, sexual inclinations, financial positions.. just love and happiness.

With all my heart I share these lines with you dear brothers and sisters, hoping next Happiness Academy you will also be there with us.

Lots of love and happiness to all.

.....

I arrived with Richard Marquis from Miami to the beautiful hotel where the Happiness Academy- Mexico 64 took place. We didn't know each other, but in just a few minutes, it seemed we knew each other all our lives. We met with many of our brothers and sisters who came from all over the country. That evening I finally met Norma (our loved Bishop) and Raquel Vergara, who came to help her from Miami. I immediately felt a very fraternal warmth coming from both of them, as it always is among Ixachilancas (Latinos) but way stronger.. like it always is among Raelians! :-))

Everything was just incredible since the first day. The fantastic classes Norma gave us, I thought it was just like the books our

Beloved Prophet wrote. Each of the exercises we did helped me to wake up my mind and my senses, little by little the real love and happiness were born in me. I was able to look at myself and see how proud I was always thinking I knew everything, I understood I needed to be humble and accept how ignorant I am when it comes to the mind-blowing teachings of our Beloved Maitreya... :-D . . Surrender to the teachings..

Now, we have to act! Not only listen to the teachings, but bring them back to the 'jungle' thru our example. We will be successful, for I saw the results thru the Academy! I felt soo happy! We must work very hard to bring this happiness to our fellow human beings.. I am ready to try my hardest, that is why I will always think about our Beloved

Maitreya's teachings.. what would HE do? I will follow you dear Prophet.

Thank you Beloved ELOHIM! Thank you!! Frank Caballero / Level 4 Reg. Guide Mexico City.

-----,

*By: Maricarmen Hernandez - Nat. Guide Mexico*

Magic started when all of us learned that we would have the teachings of our Beloved Maitreya thru our loved Bishop Norma, who traveled to our country with all her equipment and team: Raquel Vergara and Richard Marquis from Miami, they all gave us a great example of sensuality, talent, passion and conviction which lead us to live the teachings and workshops in an incredible way! Enveloped by this magic we all experienced day by day, we were witnesses of the great trans-

formation, the elevation of our consciousness into infinite love. We could feel the openness of the 30 people that lived the great adventure on this enchanting place where the incredible nature scenarios were breathtaking, the white rooms, the exquisite food, the excellent service, all was so wonderful, full of harmony at all times, I never cried of happiness so much!

The teachings of the Maitreya are the most wonderful gift from our beloved Fathers ELOHIM. The best way to save humanity is bringing all of our brothers and sisters to take this life changing Academy, and learn to be happy. We now have the weapons to go into the jungle of our everyday life, and be as crazy as possible, as different as possible, revolutionary and extraordinary as our Beloved Prophet.

Let's keep cultivating the beautiful garden that is our consciousness with these fantastic tools and save the world!! Let's turn the whole world into an eternal Happiness Academy!.

Lots of love to all of you..

### ECUADOR

We are a small team in Ecuador and yesterday we had a deep spiritual experience filled with emotions, thanks to Your teachings, dear Maitreya and thanks to Messages You give us. We went to visit pre-Inca pyramids at an altitude of 3100 meters, and the guide explained that according to the traditions, one of the 15 pyramids, was used as a base of the landing as well as a residence for extraterrestrials. Our small team was deeply moved to think that we walked where our creators may have walked themselves ... Thank you dear Maitreya for everything ...

Thank you! Love Joseph

## A NEW LEADER IN CHILE!

In a burst of changes to give a new color and dynamism to spread the Message on the south Ixachitlan continent (South America), changes have been made.

**Antonieta Muller** is replacing Luis Leighton as the new national leader for Chili.

A new leader will be soon announced, to replace Raul Cordoba, who up until now had taken the responsibility of the Movement in Argentina.

Daniel Turcotte,

Continental Guide for South Ixachitlan

## CARACAS GAY PRIDE

The Venezuelan Raelian Movement was present in the march of the GLBT Community, in the City of Caracas.

Last weekend the Venezuelan capital was dressed in the colors of the rainbow, symbol and representation of the gay, lesbian, bisexual, travesties, intersexual and transsexual communities (GLBTTI) and many conscious heterosexuals who supported all those people who gathered in the big metropolis to keep on ratifying their pride of whom they are, keep on defending their rights in a society where equalities are really taken in account.

Among the hundreds of organizations who participated, the Venezuelan Raelian Movement was also there to demand the right to be different. We all lived very wonderful emotions. Thru out the whole event, we were able to observe the real diversity of the individual. It is sad to see how absurd it is to keep acting according to silly rules imposed by this unconscious society. We are one, we share this world where there must be space for everyone, no matter what their sexual inclinations are.

This wonderful event is unique, full of creativity, abounded talent, and the naked look of the people saying.. look at me, here I am, as special as you are. It was so fantastic for all of us to be there together all brothers and sisters of Venezuela... for some of us it was a strong awakening. At the end of the event we shared dinner together with the hope that our actions united with the rest of the world will make a difference and better this world. Thank you so much sweet Maitreya. Thank you soo much beloved Creators.. Thank you for the diversity that makes each one of us a unique being..

With lots of happiness ... Luis Graterol / ARAMIS - Venezuela

## HAPPINESS ACADEMY IN EUROPE, JULY 64

By Lisiane Fricotté, Guide-assistant

The Happiness Academy was held in Lendava, a spa resort somewhere on a small piece of Planet Earth, in Slovenia ; For the past three years we have gathered in this place which, for one week, becomes the most extraordinary laboratory for learning, for developing, for experiencing what can be summed up in four letters : LOVE.

It is so important and so beautiful to be together, to go and meet those we haven't seen for a year or sometimes longer, to re-discover each other, to recharge our batteries at the source of the light, to rediscover ourselves.

Another advantage to this well-being is the fact that we can practice naturism in an ideal setting : swimming pool heated to 38°C, starlit sky... a very pleasant environment that provides the simplicity and the sensuality which are so important to our development.

So, en route to the Happiness Academy... Over 450 people made this journey : a few hours' flight for some, a few dozen hours of driving for others, landing, or rather a takeoff. Let go of your seat belts, release the brakes... spread your wings and your smiles... this seminar made us fly, fly, fly even higher...

On the first day of the seminar, Pierre Gary, the Continental Guide, invited everyone to relive that moment when s/he made the decision to come. Then he announced that Maitreya, who has been traveling for 36 years, would not physically be among us this year.

Daniel Chabot, the worldwide leader for teachings, shared that this is a challenge, a choice for everyone to be happy : “to marvel, to make our happiness grow in His absence”.

To help us grow, Brigitte Boisselier brought some wonderful gifts in her luggage : videos to share the teachings of the Maitreya in Japan. As a main theme of this week's Happiness Academy, every morning we were able to listen, watch, vibrate while listening to the word of the Maitreya, immerse ourselves and feel the teachings given (yes, a gift in the most noble sense) by Maitreya, in Japan. Brigitte translated live, and we drank these Words of Wisdom and of unconditional Love.

Twice we had the great privilege of being directly linked to Maitreya, in His garden in Japan. He talked to us, and, as a goodbye, He drew us a heart with His hands... What to say ? feeling His presence, His eyes, applying the teachings, shedding tears of happiness.

The theme of the seminar was UNITY, as in Japan (see contact 367). Maitreya told us about the feeling of unity and happiness, about laughter, about the importance of feeling one, to be oneself, eliminating the concept of being perfect. HE told us about illusions, about illusions of separation that create violence, wars : “When

one returns to the truth of unity, one returns to harmony” (July 25th). About illusions of freedom “You are illusion destroyers. This is why Raelians are revolutionaries” (July 29th).

Daniel, Brigitte, made us travel into the worlds of science, love, spirituality, universal harmony, and made us aware of the responsibilities with regards to the various levels of organization of the infinite, and that of the Raelians, particularly, while remembering that we are very little.

In the continuity of the morning teachings, several workshops were held ; Marcus Wenner, Masayo Inoue from Japan, Brigitte, made us visit distant lands with the most beautiful landscapes : our inner landscapes and we also went to explore other worlds, with the workshops on touch, sexuality, femininity and refinement.

About touch, Marcus explained its importance : “Touch is a way to turn off the war brain and rekindle the peace brain. Masayo, during the workshop on femininity, invited us to a conscious walk, following the example of the Tokyo monk moving through the streets of a bustling city, with his bell (See the movie Baraka).

Videos were shown to illustrate these themes, and enthused all participants, including :

The quest for an impossible dream, with the tightrope walker moving between the towers, and who performs a conscious walk in his own way (inspired by the documentary “Man on wire”, which can be seen on : <http://www.tagtele.com/videos/voir/55303>)

The youth of an 87 year old grandmother dancing with her grandson,

The interview with Patch Adams (who was appointed Honorary Guide), which can be viewed at : Part 1 <http://www.youtube.com/watch?v=XhmmHio7hLY&feature=related> and Part 2 <http://www.youtube.com/watch?v=QX3tRFb0ACQ&feature=related>

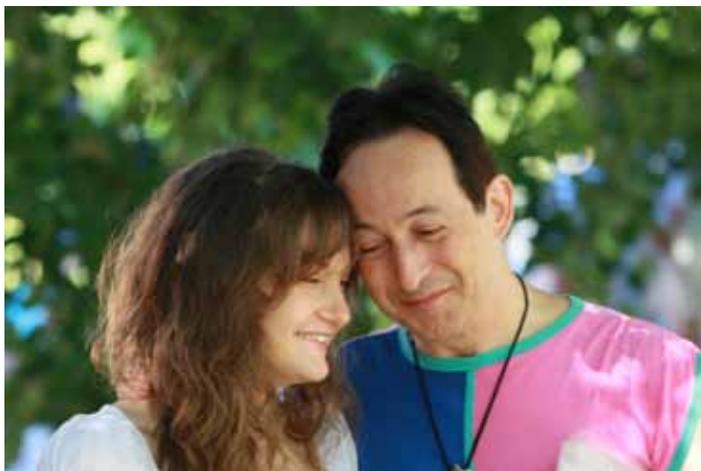

After the screening of excerpts from the film Harvey Milk, we listened to a speech by the Maitreya : it is important to “come out”, to be known wearing the symbol and to proclaim the happiness of being Raelian. “Be my witnesses on Earth”, he told the audience.

Daniel invited us to tell each other stories about where we dared and to ask ourselves, not only if we are willing to die for our cause but : “Are you ready to live for your cause ?”

Brigitte shared with us that she feels like a mother for the Planet...

The teaching from this seminar cannot be summarized in a few lines ; this is but a tiny glimpse ; living it is extraordinary and the next seminar with Maitreya will be held in Japan in October.

### Account by Rasta President who attended a Happiness Academy for the first time

This summer, Abou joined us in the seminar and decided to do his transmission on August 6th. Ten years ago, in the streets of Paris, he met a Raelian who gave him the writings of Maitreya Rael. Abou is a personality known as Rasta President. He has an electoral platform in France, and proposed to Maitreya to be Minister of intergalactic affairs. His presence at the seminar delighted us, with his funny and provocative songs... This blend of integrity, humor and creativity will ruffle some hair in the next election campaign in France. If future presidents develop their sense of humor, no doubt that the planet will get better and better Here is what he shared about his experience at this Happiness Academy.

*“I had read the Messages by Rael as well as Geniocracy before coming to the seminar and I was already in agreement with all their contents which inspired my political deprogramming for France and the world. In meeting the Raelians and the charming Raelian women, I was pleasantly surprised to note, after 15 years of research in all sorts of religious groups, sects and secret societies, that not only was this the only movement with which I really felt like home and comfortable with all its members, that not only them and I work for the same cause, but that it is also the only movement which has the ability to change the planet.*

*It can do so, thanks to the Message of the Creators which perfectly fits with our times. And it can do so, thanks to the work of spiritual liberation that for years Rael has been performing perfectly well on individuals who follow him and help him... And I have seen the fruits of his work (even though I have not seen him in the flesh !)”*

Here is one of the songs by Rasta President who seduced us all ;-) :

Femme Fontaine (excerpt) : [http://www.dailymotion.com/video/x58uj8\\_femmes-fontaines-nouvel-ordre-mondi\\_fun](http://www.dailymotion.com/video/x58uj8_femmes-fontaines-nouvel-ordre-mondi_fun)

### Testimony from Laurie, another new participant from UK

*For many years I had heard about the message, read the books and explored the website but I had never met any Raelians before. I had recently entered a drugs rehabilitation program, split up with my long term partner and generally started to clear all the negative things out of my life. So I decided to give the Happiness seminar a go to see if it would work.*

*I found many of the exercises at the seminar challenging and stimulating despite considering myself to be very open minded. The first three days were particularly hard for me as I was far away from all the external things I had used in the past to keep me happy. But the love and support of everyone there, especially the uk guides, kept me motivated to make it through the week.*

*I learned many new things about myself and most importantly how to maintain my happiness without relying on other people, possessions or fantasies of the future or the past. Most importantly I met so many beautiful, happy people who were an inspiration to me and I have kept in touch with them on the internet.*

**Nominations :**

**Marco**, new assistant to the Continental Guide

**Vule**, new Guide trainee (in the center of the pool picture)

**Marcel Hoffman**, new Guide Trainee (below right)

**Satan Ancel**, new Guide trainee (below left)

### **AUGUST 6TH, IN EUROPE**

On August 6, hearts and consciences, perfumes, colors and sounds of Lendava floated in the air. A bath of love, universal harmony ...

We are one ...

Gatherings were held across Europe including Italy, England, Switzerland, Holland, France, Sweden, with special guests from the American continent, Brigitte Boisselier, Pierre-Paul Bourque, Thomas Kaenzig ... Welcome to the 13 persons who decided to do their transmission of the cellular plan and thus recognized the Elohim, the creators of life on Earth and Maitreya Rael, their messenger.

*Religiosity and universal harmony... In Italia*

“The melody of our smiles and happiness vibrated in our hearts as a music coming from remote lands, and our looks never stopped to be astonished” said Giovanni Ottaviani, Raelian Guide in Italy.

At the beginning of the party, Roberta Pucci has greeted all the 40 people, our beloved national guide Marco and a guest star: Brigitte!

The meeting has gone on with the cell plan transmission of 4 new Raelians and with other speeches, among which Marco and Brigitte who gave us the gift of some videos of the Maitreya.

Giovanni said :

“We talked about the importance of feeling ONE... One with ourselves, with the mankind, with the stars, with the Elohim, with the other consciousnesses of the infinity... And if one day we will meet other living beings with a high level of love, no matter their shape, they will surely have a symbol like ours, because it represents the infinity, the religion of every advanced civilization. It is important to wear our symbol, this put us among the most advanced consciousnesses of the universe. Our science, anyway, will understand the infinity and some scientists are going to do it, like Tsing Hua of Taiwan University.

Then, Brigitte pointed out how important is to express our being, developing our ability to be like children, having fun and smiling every single day of our life, being no more depressed... Knowing we are responsible for the harmony of the universe, to be depressed would be a selfish act. Instead, let's express our light and craziness. Thanks to the Message, we have all the means to make our beauty vibrate”...

And like children, everyone enjoyed many tricks by a new Raelian, a super professional magician

### *Pleasure to be together... In UK*

This year the UK team were invited to a new member Laurie's house for a pool party! Unfortunately the sun did not have his hat on... but we were not going to let that spoil our fun.

It was an intimate group of 10 with two new people who were meeting Raelians for the first time and also of course our beautiful guest Thomas Kaenzig.

Laurie was a great host, the food and in fact everything was wonderful... He has a bespoke outside circular patio which is sunk into the ground with a fire in the centre. We had no transmissions this year, so at 15.00 we lit the fire, gathered around, closed our eyes and allowed our self to be lead through a beautiful contact by Glenn.

After we sat and chatted to get to know each other better.....the only thing missing was the marshmallows to toast!!!!

Then as we did not want the day to end we all decided to go out for a meal, we collected Suzy B on the way as she had been working and found a nice Indian restaurant in the docklands we filled our tummy's with some delicious food and then full to the brim we decided to take a walk by the Thames. We wanted the day to last as long as possible it was hard to say goodbye because it felt so good for us to be together and as the wind blew we watched the party boats glide by we were just so happy to see other people also celebrating this important day even though they had no idea..... one day they will xxxxxxx

With love from the UK

*In Switzerland*, more than 40 people gathered around Philip Chabloz, National Guide, with Petra on his right on the picture, whose mother did her transmission of the cellular plan ... Tears of joy rolled down cheeks. On the picture (in the background) Emmanuel, who delighted us with his harmonizing sounds, exchanged Tibetan bowls for a hat and Chris Antille, Guide for Switzerland.

*In Netherlands*, about 12 people gathered in the beautiful location of the Spinaziehuis in Berchem. Two new people came to the celebration. One of them, Harpreet, decided to do his transmission of the cellular plan.

Daniël, the National Guide, spoke about our neurons: how they are connected in our brain and that they all have a consciousness. Our body gets older which is normal because our cells age but we can keep our brain young – if we want to. Our brain is a marvelous machine. We talked about the newest discoveries in science and technology: how they will lead humankind to paradise and freedom.

*In France*, whether in the sand dunes with the sound of crickets or sharing a meal, at the 4 corners of France, nearly 150 people gathered and enriched themselves at each others contact.

Kimbangu, National Guide, tells us: “Once again an extraordinary harmony in France and Belgium to start the year 65Ah. Gatherings in all provinces, a lot of warmth, excitement and beauty ... We felt the unity of the French-Belgium Raelians! In addition five new persons did their Raelian baptism including the future President of the French Republic, Abu Rasta.

And several new people came to meet us after discovering us on the internet. Happiness only ... I like my team immensely! Forever with the Maitreya ... Forever with the Elohim. “ Pierre-Paul Bourque Guide in Quebec who was visiting Europe, did the transmission of Chrystelle who came for the first time to the University of Happiness this summer. He led a meditation, everybody holding hands in a circle, to feel Unity by visualizing silk threads, woven with each of us, like a beautiful spider web. We

*Bonne année 65 ...*

are one! He also reminded us the importance of practicing English so that our exchanges can be fluid, for a better unity among different countries and continents, including Our beloved Maitreya , of whom we are the humble servants, Him who guides us, we must be like a flock of birds or a school of fish that all go in the same direction.

Happiness is contagious ... This is what everyone has seen, either in the South or North of France, Belgium, in the West or even East of France. During one of these gatherings, we had the pleasure to welcome Marcel Terrusse, Raelian and eminent scientist - who accompanied his nephew, Daniel, who came to do his transmission - and who explained what is the transmission of the cellular plan, mentioning the characteristic and unique vibration of each DNA.

A beautiful celebration in the Southwest on the ocean and under the enchanting Milky Way...around the continental Guide Pierre Gary, who is giving us this photo montage as a gift.

Beautiful emotion in Paris during the transmission of Rasta President who attended the University of Happiness for the first time this year .

### **THREE RAE LIANS ON THE TRIGLAV, AND A GATHERING ON A BEAUTIFUL BEACH IN CROATIA!**

After a week spent at the Happiness Academy in Lendava in Slovenia, filled with beautiful revitalizing energy, we decided to walk the mountains in the Julian Alps (the Slovenian Alps) and achieve a little challenge: Climbing the highest peak in Slovenia, the Triglav at a height of 2,864 m, and immortalizing the climb with a picture, proudly wearing the Raelian symbol!

Throughout the climb we were filled with happiness, admiring landscapes, fauna, flora, beautiful creations of our fathers, the Elohim.

After spending the night in a mountain refuge at an altitude of 2500m, we got up early the next morning to climb the last meters of the highest point, at 6:50 AM we could enjoy a magnificent panoramic view of the Austrian Alps on one side , and

Slovenian plains and mountains on the other side, we could even make out in the distance the Adriatic Sea, Italy, the Croatian coast ...

The next day we met with a few Raelians: Mladen, National guide, Vule, newly appointed guide and assisting Mladen, his partner Sophie, Mitja, Miha and his partner Nelly, Damien, Laurent, Milan, Pierre Andre, Myriam Dorsaz and Guillaume Demba (traveling in Croatia), to celebrate Aug. 6 on the possible site of the next Raelian Seminar

Love, Damien, Laurent and Milan

**FRANCE, KIMBANGU ACCEPTED BACK AT CATTENOM NUCLEAR PLANT. THE PREFECT OF LORRAINE GRANTS THAT RIGHT TO A RAEIAN BISHOP AFTER 5 YEARS OF DISCREDIT !**

You probably remember Kimbangu, the National guide of France and his long struggle to find an answer to a simple question: “Why am I banned from working at the Cattenom nuclear Plant”?

Since 2005, all his pleas made to the province’s administrative headquarters and to many organizations supposed to help victims of discrimination had remained unanswered until this past July 22, 2010. At that date, he received a letter from Bernard Niquet the Prefect of the region of Lorraine announcing that he was once again granted access to the Cattenom Nuclear and Electrical Plant for work purposes “without any objections”. Of course, Pierre-Michel Piffer is not going to be satisfied with a simple letter. He demands excuses and a financial compensation from the French Government for the professional discrimination he has suffered during 5 years of silence and unanswered questions, 5 years of hurtful remarks, of being called for questioning, multiple arrests as well as constantly being pulled over by the National police, the French CIA, dozens of days off, all the travel expenses to the UN in Geneva, Switzerland, to the French Government headquarters in Paris, to the General Assembly in Paris, to the Halde Head Quarters’ in Paris and at Cattenom. Five years of seeing his personal id confiscated, 5 years during which no Government agency dared to answer his one simple question: ‘why was he banned from working at Cattenom?’

In a recent mail, Kimbangu thanked the Prefect, Bernard Niquet for his letter finally recognizing officially the iniquity of his situation. In the letter, he wrote his joy, if one can put it that way, to see a man finally respecting human rights toward a Raelian whose religion is unjustly decried and degraded by the government through its different state agencies like the Milivudes, that discriminate against the Raelian Movement through unfounded court trials and then send the accusations to the people’s vindication without any scruple.

The non-objection letter from the Prefect of Lorraine is an implied recognition that there indeed was discrimination because Piffer did not acquire new qualifications that would justify his readmission. If he is worthy of being accepted in Cattenom today, he was just as worthy 5 years ago and the government

soiled his reputation and poisoned his life to such extent that it owes Piffer reparation.

“It would be much too easy for the government to be absolved of its past errors by sending a simple letter through one of its prefect” adds Piffer, “I decided to stand up and demand official excuses from the government and a financial compensation for the years of discrimination suffered at my work place.”

## FRANCE, A PROPOSITION FROM THE NATIONAL GUIDE

A few days after the seminars, nine of us had gathered at my house to celebrate Marcel Hoffman’s nomination as Guide trainee. The group’s harmony was beautiful. During the evening we began discussing the topic of familiarity.

In the dictionary, this term means among other things: undue intimacy.

We continued debating and recognized that through habit, sometimes through a lack of consciousness, certain familiarities have appeared between us, in our invitations, in the respect of the structure, during diffusion, in the understanding of a strategy, in our couple’s life and in many other aspects ....

I shared a personal testimony about the power of habit that has settled in my place of work:

“I do not proselytize in my place of work but everyone in my department knows that I am raelian. I believe that I am a rather atypical work agent who remains professional without being exceptional. My work ethics is to do the best I can and to always keep good relations with the clients of our firm. I also maintain a courteous relationship with my direct hierarchy. But, it is true that with my colleagues, it is more difficult to avoid the usual mocking remarks that are often more awkward than mean! Far too many incorrect impressions, perceptions, prejudice that end up being hurtful sometimes. You may have experienced that as well, this humor void of love that can be referred to as stupidity, this irony referring to you and that does not make you laugh!!! Some remarks about your hairstyle, your clothes, your way of being, about current events... that part, without a doubt is the most unpleasant situation... because I can’t avoid it!

The worse in all this, is that being immersed in a setting that is not very positive, I become less positive myself!

All is not bad. During my 32 years at work, I met exceptional colleagues, even friends especially when I used to work on the road. So I forgive and forget quickly those who were not delicate enough. I will keep forever inside me, those who were able to bring me their support. And I also repeat to myself “All that is alive can always change for the better, me included!”

And this morning, after the telepathic contact, we decided to carefully consider this “familiarity” that has become a habit. From now on, when we will visit each other, we will do so as if we were going to the Embassy.

Yes, and that thanks to the values we have in us from the Order of the Angels because let us not forget that the Elohim wish to be welcomed without familiarities!

*“The human civilization has and still shows so much sexism and machoism that it is only fair that women have the privilege to approach us in our intimacy”* Order of the Angels of Rael.

At each moment, let us always have more consciousness and love ... for the others and for each other when we are among ourselves, Raelians!

With Love and with great respect for all of you.

Kimbangu Mundele

## OCEANIA - NEW ZEALAND

What a FANTASTIC weekend we had at the Erotica Lifestyles Expo in Auckland! (Fri 13th – Sun 15th Aug)

This was our 3rd Clitoraid stall in New Zealand and as per previous years there were many people sympathetic to our cause. We quickly discovered that many people were already aware of the practice of female circumcision – due in part to authors and human rights activists such as Waris Dirie. How wonderful to inform these people that there is now a surgical technique that can restore pleasure to the victims of this outdated and barbaric practice!

This year we displayed the latest photos of the Pleasure Hospital. These served as a visual and inspiring reminder of the progress that has been made to date thanks to Clitoraid's efforts around the world. It is now only a matter of time before the Pleasure hospital opens its doors. By doing so, not only do we send the message that excision is totally unnecessary, we also send the message that it is completely unacceptable and should no longer be tolerated!

At this year's Erotica Expo, the organiser, Steve Crow, auctioned some posters and this money was donated to Clitoraid! And although we didn't sell as many t-shirts this year, we still ended up raising a total of \$683.50 NZ - taking us one step closer toward the completion of the Pleasure Hospital.

A special thank you to Diane, Brian and Luke who assisted me over the course of the 3 day event.

What an honour and a privilege to be part of this wonderful humanitarian cause.

Lots of love,

Morph, National Responsible, NZ Raelian Movement

## KAMA, GABON

The gabonese team has been very successful with the media in the past few weeks. The spokesperson Kemy was interviewed by a popular FM radio (Ogooue) about the importance of sensual meditation. The radio Africa #1 aired the interview of Maitreya about the independance of Kama and so did the TV channel Canal Ocean LVB and the show Africa Vie of Africa #1. Another TV, Canal Delta POG interviewed Kemy about the Raelian religion.

## BURKINA FASO – LIGHTS OVER ELOHIKA

*By Sourabie Salif*

Since April 30, the date when I moved to Elohika, I have witnessed three extraordinary and unusual light phenomena in the Elohika skies.

The first one took place on May 10; on that day, after playing the drums, I was getting ready to take a shower, it was 7:30PM, when suddenly I was attracted by a very bright light moving quickly above the cliff at low altitude from East to West. I was able to notice a cone like shape a little like an upside down napkin, I witnessed its moving for about 6 seconds and then the object disappeared from my view.

On June 2, 23 days later, that is, I was playing my drums near the camp fire, and once again I caught sight of a light that looked like the flash of a camera that took place above my head. I noticed a luminous disk moving at great speed above the Elohika bungalows toward the cliff. This time, I was able to observe this phenomenon a bit longer, about 10 seconds before the

object disappeared behind the cliff, but I noticed that the luminous disk had slightly tilted to my right before going away. It was about 7:50 PM.

More recently, on July 12, another phenomenon took place but this time it was far more spectacular than the previous times. It was 6:40 PM, and I had began to play my drums as I usually do. Then around 7:10 PM, the sky became suddenly dark on the west end of the cliffs (for those who are familiar with Elohika, I am speaking about the Big Top (Chapiteau) area). It was as if it was going to rain but unfortunately it did not and the sky would become light again a few minutes after the event. It was as if the big clouds that covered the sky at the moment were put there for a purpose. At 7:30 PM, at the same time as the first sighting, I suddenly stopped playing the drums because I was stunned to see a very bright light enhanced against the darkened sky that made it shine out even more. The light went down in an oblique fashion above the western cliff. Because of my position, if the light was to continue going down, I would have lost track of it because the Shea-tree in the distance would have blocked my view. And so this light, as if intelligence were to guide it, moved in a U pattern and placed itself in an area of the cliff that was the most visible from my view point until I lost sight of it. In fact, this view point allowed me to identify a cone like shape identical to the one on May 10. The observation lasted about 15 seconds.

It was truly extraordinary and fantastic, probably a little wink from the Elohim on our beautiful Elohika site!!!

### **CLITORAID, SHORT NEWS FROM THE CLITORAL FRONT:)):**

In the US, we now have 12 patients on the waiting list for dr Bowers for the October operation run in San Francisco.

She will operate on one patient alone next month as a favor to the mother who had surgery two weeks ago and whose daughter was circumcised by Grandma in Africa when the mother was away. The mother has suffered guilt for 30 years and now the mental pain will finally be lifted. This mother is a nurse and insists on helping at the hospital.

One patient is due for surgery with our new surgeon in the Philippines at the end of Aug, one from Switzerland will have her surgery done by Dr. Foldes.

7 patients are recovering happily and patiently from the July operations and we have 2 orgasmic patients among those who were operated on in February!

Of all these, one is quite interested in the Raelian Philosophy, she came here from Australia on a "spiritual journey" she said, that included becoming a true woman...

## HOMAGE

This Man is a spiritual garden.  
 A privilege without words and an essential energy.  
 Through His religiosity, He fills us with His gentleness  
 A perfect instant linking us to our Fathers.

A light so bright so full of life,  
 With incomparable reflections of the deepest love.  
 To admire Him is to be with our Creators.  
 But also with ourselves with a beautiful reflection of self love

A prayer to forget our present troubles,  
 A contact to forgive all those who offended us  
 A moment to hold on to infinite abundance and nothing else  
 And to feel infinitely honored to exist at the same time as HIM

To give makes one happier  
 To pray is before anything else to give to oneself  
 The Maitreya alone is the most beautiful of prayer  
 The one of infinitely giving the wish to welcome the Men and  
 Women who come from the sky  
 Kimbangu
