WORDS of OUR BELOVED PROPHET

THE EXECUTION OF ZARQAWI: THE UNITED STATES INSTITUTIONALISES POLITICAL ASSASINATIONS

Faithful to his usual self, George Bush and the low-consciousness military who serve him celebrated the assassination of Abu Musab al-Zarqawi. The American Michael Berg, father of one of the young men decapitated by the terrorist reminded the surprised journalists, quite rightly, that no one has the right to rejoice in the death of another human being and that he condemns this political assassination as much as he does the decapitation of his son and that any acts of violence only produce more violence.

But the problem raised by this political assassination is even more serious. If a terrorist is killed while resisting arrest to try him for his crimes, then that is definitely above criticism. But when the most powerful army in the world, with its 130,000 soldiers on the spot, has just received intelligence proving with certainty that this dangerous terrorist is in the isolated house, nothing can justify them sending in F16s to drop 500 kg bombs on the building, knowing full well that there were also innocent civilians present: A woman and child were among the victims, of course soon to be considered "collateral damage".

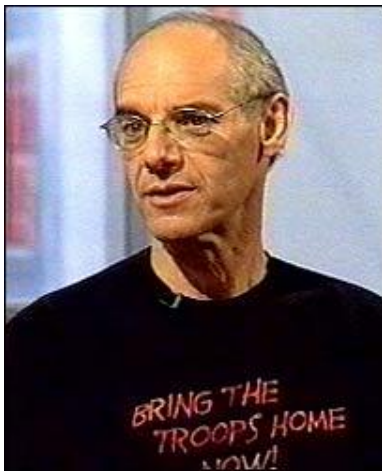

With 130,000 soldiers, it would have been so easy to encircle the house in question and arrest Al Zarqawi so that he could be judged in court in due form and process just as

every human being is entitled to. But instead they preferred to pulverize the house and the people inside it with their bombs and deny the occupants any form of justice. An execution without trial - a summary execution – carried out by the country that claims to be the world model of “civilization and democracy”!

The American secret services, brilliant as they are, would have without a doubt known that there was also an innocent woman and child in the house. But they judged that their lives were without value, and this without any philosophical dilemma.

Let us imagine that there is a dangerous criminal in a house in Texas, with an innocent woman and child. Will the American authorities send an F16 to pulverize the lot? Of course not. So why in Iraq? Because for George Bush and his cronies, the life of an Iraqi does not have the same value as that of an American citizen, if any value at all. And millions of people from the Middle East will remember that, which will encourage many more young people to join the ranks of the terrorists in a spiraling vicious circle.

Only a head of state with Gandhi as a model can put an end to this vicious circle of violence. It is time for the United States to become an example again to the world of civilization and democracy by replacing the criminal who is presently their chief of state with a man of peace and non-violence. Violence, even if justified, always engenders more violence and love and compassion engenders love and compassion.

In the eyes of those with low levels of consciousness, Michael Berg would be justified to celebrate the death of Zarqawi. To their great disappointment, he receives the news of the assassination of his son's murderer with sadness and condemned it. That is why I have decided to attribute to him the title of Honorary Guide of Humanity. If only he would present his candidacy for the president of the United States!

In another statement, here is what the Prophet RAEL said about Michael Berg:

I have decided to award Michael Berg the title of honorary Guide for his beautiful reaction to the execution of Abu Musab al-Zarqawi by the American army. Even with his son having been beheaded by this man, he is still opposed to revenge, saying the truth: that every act of violence brings more violence in a never ending vicious circle of death. Michael Berg is a living example of the values promoted by Gandhi which are the only one which can save the world : absolute non violence.

NEWS AND VIEWS

The Prophet RAEL sent his support this week to **Perihan Magden**, the Turkish newspaper columnist who faces a possible jail sentence for the crime of "prompting, encouraging or spreading propaganda to deter people from carrying out military service". Turkey is the only state among the 46 members of the Council of Europe which has refused to recognize the status of conscientious objectors or give them an alternative to military service and now, a journalist who happens to be a single mother is threatened with jail for upholding European norms!!

He also expressed his support to **Professor Doyal**, former professor of medical ethics in UK, who believes that all euthanasia should be legal.

Len Doyal, said the law should be changed to enable doctors to withdraw treatment even if patients cannot consent. He said that when doctors withdraw life-sustaining treatment from severely incompetent patients, such as those in a permanent vegetative state, it was effectively euthanasia and this should be legalized along with all forms of euthanasia, whether patients can ask for it or not.

We would like also to congratulate the famous actor **Dan Akroyd** who recently produced a film on [UFOs and government disclosure](#). Amassing well known as well as lesser known facts on UFO research over the last 60 years, Mr. Akroid is the biggest celebrity ever to be so outspoken on the UFO matter. He has interviews from many ex-military, NASA, astronauts, presidents and more witnesses from all over the world who all give compelling evidence to the existence of UFOs. Although we, Raelians, are less interested in the UFOs than in who drives them, we appreciate when people like Dan Akroyd speak up and ask for the truth to be revealed J .

Circumcision.

Five southern African countries called upon a United Nations AIDS Organization to facilitate the access to circumcision. We must be dreaming! Botswana, Lesotho, Swaziland, Tanzania and Zambia wish to promote circumcision to prevent Aids, an idea that is a continuation of the publication of a South African study indicating that circumcised men are less exposed to aids.

Our Prophet reminds us that circumcision is a mutilation that we denounce, as well as all other sexual mutilations. The only way of protecting ourselves from the aids virus is to use a condom!!!

MOUVEMENT'S LIFE

About Ethics

You may recall in Contact 309 the decision to cancel the obligation of declaring financial matters between Raelians to the Ethics Committee as well as the annulment of the records of these matters.

It is nevertheless always recommended to sign an agreement between members of the structure so that the partners are well aware that their financial engagement has nothing to do with their philosophical engagement.

You will find an agreement at the end of this Contact so that you can print it easily. Note that it is stipulated in this agreement that the partners *"vow not to complain to the authorities of the Movement for any loans or investments that have not turned out well or have not been reimbursed"* because the borrowers that do not reimburse their debts will never be punished by the Movement.

Our Prophet reminds us that it is the duty of all human beings to feel in charge of their actions and of their financial or other decisions. No one can come and whine to the authorities of the Movement when they invested or lent money to a member of the structure and the matters have not turned out well. Once more - no Jew will see his rabbi when another Jew has debts, and no Christian complains to the pope if another Christian owes him money. There is no reason that we should be stricter than the others on this matter.

He adds that freedom goes hand in hand with responsibility...

DIFFUSION IN the CARIBBEAN

By Richard Riel, Canada

Hello everyone, it is with pleasure that I share with you an extraordinary adventure that I lived with my Raelian brother Denis Cloutier in the Caribbean.

First of all I would like to let you know how we decided to go about our diffusion: we chose to go on a cruise to relax a little, what a pleasure to get pampered by the crew and the captain while taking the time to get organized and to prepare to discover virgin territory. We were therefore ready for our adventure, rested and harmonious. What a difference from Quebec covered in snow and cold.

We went through Haïti, Jamaica, the Cayman Islands and Cozumel the first week, St-Thomas, St-Martin and the Bahamas the second week. The most beautiful diffusion in my opinion was in Jamaica where we made the acquaintance of a taxi driver by the name of Richard who took us around through his native island. But where this became extraordinary, was when Denis gave him a flyer, a light came on. He took us around his country while taking good care to bring us where we could distribute flyers to the largest number of people - what pleasure to have found a brother that involves himself personally and immediately.

The cherry on the cake was when he had the idea to bring us to visit a secondary school where, he said, we can reach the beautiful youth - the future of his country.

We then arrived in front of the gates of the school - locked. All of a sudden, before our skeptical eyes, he jumps out of the car. He then has the idea to introduce us as scientists from Canada that bring the opportunity to teach science to the students thanks to free books on the internet and that it was in their best interest to let us to enter.

To our surprise, the guard opened the doors and let us enter. Denis and I went to see the Assistant Director who received us with open arms, with her blessing and to our big surprise, we were encouraged to circulate freely in the school. What a pleasure to diffuse directly to these young ones on the campus. I was a little moved and with contemplation that I saw – yes - that I saw with my own eyes, Denis enter into each class one by one and distribute our wealth and happiness to the students. To his big surprise even the teachers asked for some. A beautiful and humble lesson for our own schools in Quebec.

It is only one of the small anecdotes among several, but I was anxious to share a small victory for our humanity, at least I hope. We found a new way to diffuse with pleasure and joy, and very easily, since these are fertile places full of sunshine and without prejudice. And it was all affordable, thanks to the internet and its fabulous discounts!

I will return in November or December, so come and join the team under the new responsible of the English-speaking West Indies, Bernard Lamarche. Come and be in direct pleasure, to diffuse in the exotic Islands of the Caribbean.

Everybody on board !!!!!!!

HIROSHIMA, Japan

By Tetsuya

Sixty years ago an atomic bomb was dropped on the city of Hiroshima. On May 3rd, Raelians attended a peace festival called Hiroshima Flower Festival and they dropped a "bomb" of love and femininity on the city.

It was very fine, and 150 million people came to this event. Raelians gathered here to march in a parade to appeal for the importance of femininity with some of us walking ahead holding a banner saying "Let's Welcome 'The Elohim', Another Race of People from Space!"

The Raelians stood out in the crowds; among them were "angels", who had their body painted with a variety of colors, which symbolized the seven races of the creation. Some Raelians were wearing a silver jump-suit and an extra-terrestrial-looking mask on the face. We had an open car symbolizing Adam and Eve, a miniature UFO shrine, a flower car with "angels" on it, another one with angels holding earth-shaped balloons, and a group of Raelians all dressed in white costumes. In

particular, Miss Yurika dressed up like Eve in the Bible looked so sexy and beautiful that over ten cameramen kept taking photos of her the whole time.

Our parade was one of the best we have ever done so far. It made me feel so good to walk in it with a lot of attention from the spectators!

After the parade, we did a pamphlet distribution still in our costume at Peace park, and before we knew it, all of them were handed out. A reporter came from a weekly press "Flash" for shooting us, and during and after the parade, Miss Color and Yoshimi were photographed. I believe that the photos, once developed, will look very nice.

I especially noticed that the group of Raelians from Hiroshima area did a very good preparation for the parade - Motopy's and Tomoko's arrangements and leadership, and dedicated help of the members from the Chugoku region of Japan.

I would love to say "congratulation" to all of them, who have attended this event. This was done thanks to all of them including some having helped us from behind the scenes. I can always feel that our team work gets stronger in such an event, because we do cooperate with each other for the same goal.

Rael's words stay in my heart ; "Events will build people's consciousness. Get ready for it, and get together."

**AGREEMENT OF ENGAGEMENT BETWEEN MEMBERS OF THE RAELIAN
MOVEMENT**

The decision has been taken to have financial and/or professional relations that consist of:

Between the undersigned:

1st Party:

2nd Party:.....

We agree to the following:

Being members of the Raelian Movement we are conscious that this financial **engagement** has nothing to do with our philosophical activities and that the level in the structure of the I.R.M. will not be taken into account in our decisions.

We are conscious that even a guide is not perfect and can undergo a shift and financial failure, and that is even more likely to happen to the guides since they take more risks than other people. Consequently, if the financial matters that we start together "turn sour", under no circumstance should we hold a grievance between each other, nor publicize this amongst our philosophical relations.

The two parties of this contract commit to never mix philosophical and professional matters should the professional engagements not work out and to not complain to the authorities of the Raelian Movement regarding any loans or investments that might have failed or cannot be reimbursed, as the borrowers that do not reimburse their debts will never be punished by the Movement. Each person is responsible for what happens to him/her, he/she alone will bear the responsibilities of his/her actions and will maintain his/her philosophical confidence in the partner even if the financial matter becomes catastrophic.

Financial engagements take place between imperfect *human beings* and not between *members of the structure* of the Raelian Movement, who can be perfect in their roles relative to our philosophical goals.

We acknowledge that we understand and therefore sign this document while vowing to respect each other philosophically, regardless of the results of our financial or professional engagements.
