## **The power of feeling Infinity and Eternity**

Maitreya Rael on January 9, 76 aH

Together, let's say, "Thank you Elohim", not only with your mouth, but with each one of your cells.

Don't look up, as the Elohim may be down. The Earth being round, we don't know in which direction they are and that's very good, it destroys mysticism.

The Elohim are everywhere. By not knowing where they are, we can love them more. Feel it. They are everywhere, not only somewhere in the sky, but also inside yourself.

To feel Infinity and the Elohim, it is the same. Look at your hand, you see Infinity, stars, just like when looking at the sky.

PEACE 

Looking at the sky or at your hand, you see the Elohim. They are everywhere. They are in the eyes of our brothers and sisters. When I look at your eyes, Shizue, I see infinity. I see the Elohim. And I hope that when you look at me you see the same thing.

I'm not an old man. I'm not the Messenger of the Elohim, I am Infinity.

Being the Messenger of Infinity would mean there is Infinity, and there is me. We are not separated.

When one Raelian dies, other Raelians often say, "we wish you a good travel to Infinity." No... You don't travel to Infinity. You were Infinity before being born. You are still Infinity when you are born. When you reach 20, 30, 60... you are still Infinity. When you are about to die, you are already Infinity. And when we die, we are still Infinity.

So there is nothing in us which has been and is different now, nothing in us which is now and will be different after death. Being made of Infinity, we are eternal, even if we don't reach the Elohim's planet.

Feel it. It's amazing. We are Infinity, we are eternal.

We are Infinity in space and time, and together we are one. We are one with each other.

Every time we had gatherings before, we were thinking about Tadao. He was in a hospital. At a hospital or here, there is no difference. We are one. Three years ago four years ago, I don't remember... I was in a hospital. I was one with you. If tonight I die, I'll still be one with you.

This incredible power of feeling Infinity and Eternity is the most beautiful gift of the Elohim.

# We are equal to everything in the universe, equal in the infinity and eternity power we have

Maitreya Rael, January 9, 76 aH

That's why the Elohim say, "Don't pray with your knees on the ground." "Don't bend over in front of us. Stay on your legs, and feel." "You, human beings, are equal to us."

The Elohim don't say, "Human beings, you must bend over in front of us!" They say, "Look up, we created you equal to us." That's fantastic! Feel it!

No more fear of a god, no more Allahu Akbar. We are equal to everything in the universe. Feel the power of that! It's a huge power in any circumstances, in your normal life, in your love life, with your partners, with women, if you are a man. It's the same thing, we are equal. Many religious books say, "Men are superior, women are inferior." This concept of being equal is beautiful. Equal between men and women, equal between Blackq and Whites, Asians and Europeans... equal. And above all, equal to our Creators.

What a different feeling to look at the sky and say, "I love you Elohim. We are equal, and I love you."

It's the same in a couple. If a man feels superior to a woman, and says, "I love you," it is not real love. Love is when you feel equal. Being equal doesn't mean we are the same. We are all different,

young and old... but we are equal. Equal in the infinity and eternity power we have.

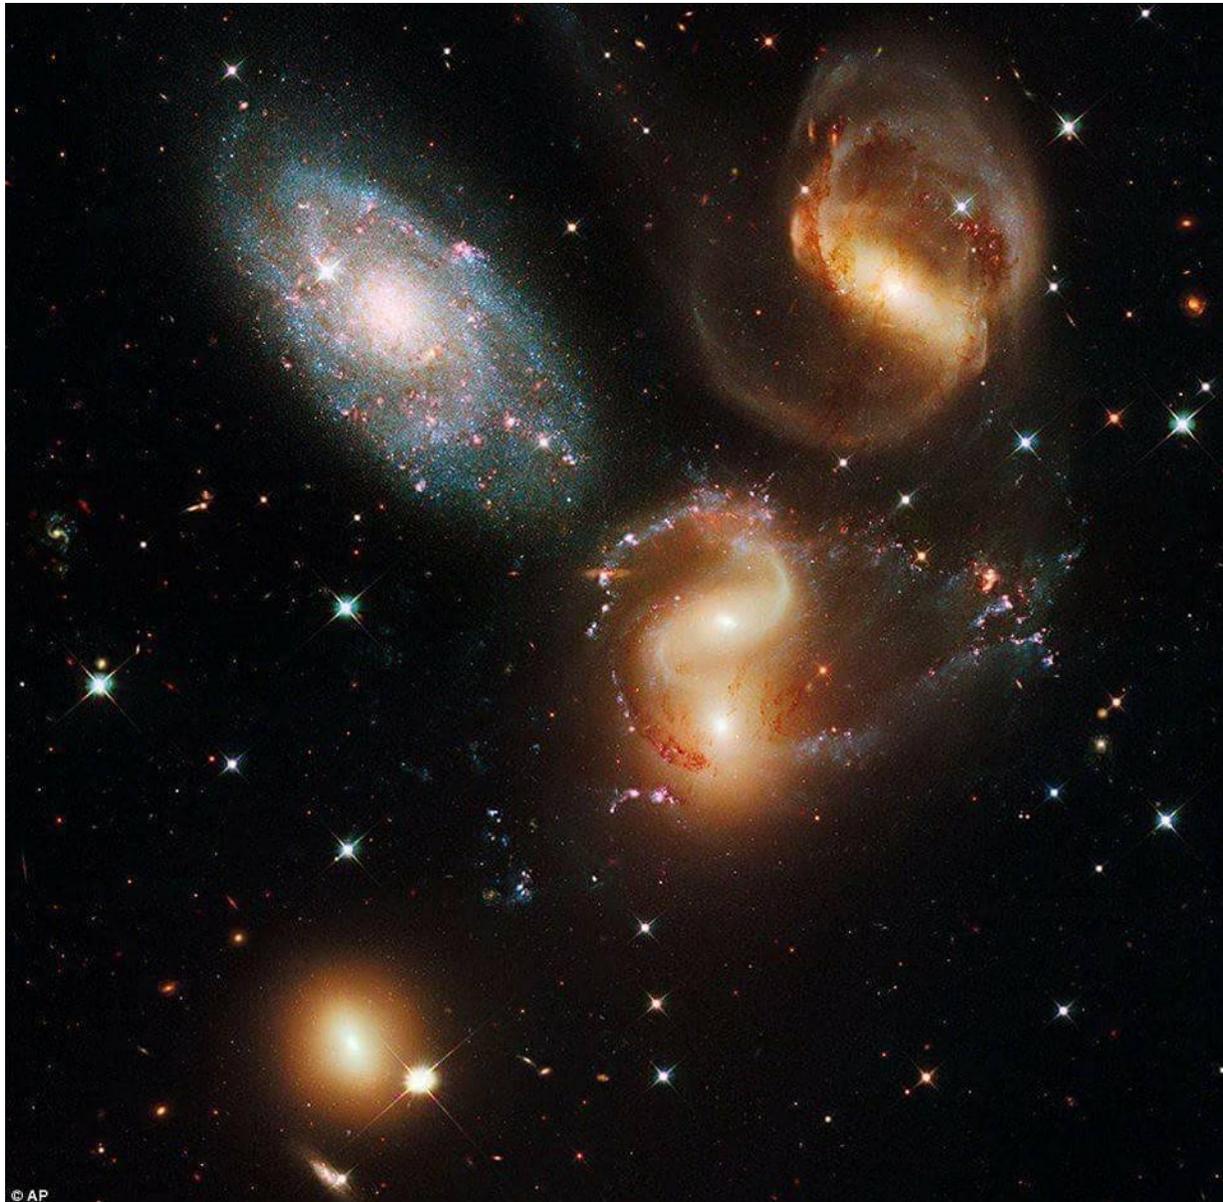

One Raelian man once told me, "I love the Message, I love your teaching Maitreya, but I feel lonely. I go to the gathering with Raelian brothers and sisters, but when I'm back in my home, my apartment, I feel lonely. What can I do?" I told him, "Look at your hand, it's that simple. Billions of billions of lives are inside your hand, how can you feel lonely? You are not alone, you are infinity. And being infinity, you are one."

# One eternal neuron, the link between you and Infinity

Maitreya Rael, January 9, 76 aH

You remember my teaching stating that "Happiness is now." But there is no now, because the time is passing so fast. 11:15, 11:15 and 10 seconds just the time to say it, it changes all the time, there is no now.

We must feel now, which doesn't exist. Now is a movement, like our cells are movement in the universe, from dust to dust.

© AP  
© VB

You are all made of stardust. I don't see human beings, I see stardust. It isn't a joke. Your body is made of dust that comes from the stars. Every day, dust from the stars falls on Earth, sixty tons every day. We don't see it, but it's everywhere. And we can see it when we dig and we find the traces of past civilizations. Why are they covered with ground? Nobody puts ground on it. It's falling from the stars. The Earth gets bigger every day, and this dust that falls on the ground goes up in vegetables, rice, animals, and we eat it, it becomes our body.

If we could identify their origin we could say, "Oh, you have been to this planet, this part of the galaxy... you were on the moon before." Where was that dust before? Not on the moon, not on any star, it was on every star, because there is Infinity in time, so through Infinity, we have been everywhere. Feel it.

I am a child from the stars...What a great feeling. Thank you Elohim, because of... everywhere.

So there is no now, and there is no here. People commonly say, "Happiness is here and now." I reply sometimes, "No, happiness is everywhere, not only here. Here is happiness, but here also."

Happiness is everywhere, and nowhere. It's inside, in the supraconsciousness, and it's not now. It was fifteen minutes before, and it will be fifteen minutes later.

So when you say, "Happiness is here," it is okay but also wrong as there is no now, and there is no here.

You are here, which is in Okinawa, in Miroku-jo (Maitreya's castle), on your right foot, or your left foot, or right under your sex? You can divide location, like you divide time, one centimeter? One millimeter? There is no here, because if you divide, and divide, and divide, and divide... you will always find a smaller measurement.

It is the same when you say, "I am." Who is "I"? The nose? If I cut the nose, you are not? You still are. My arm? If I cut your arm, you still exist. Some people have no legs, but they still exist.

So, where is "I"? A part of the brain? Which part? In the supraconsciousness? Is it that big?

Last week was a wonderful week. Scientists said that supra... consciousness - they don't talk about supraconsciousness yet - that consciousness is probably limited to one or a few neurons. I've been teaching that for forty five years. Now with the measurements of what happens in the brains of people, they discovered that the feeling of self, of being you, involves a few neurons.

We have billions of neurons, but they are not useful. They are thinking about, "Ok, what will I eat for lunch?" "What will I do tomorrow?" "Maitreya speaks for too long, I am tired..." Thinking, thinking... The brain is full of thinking.

But, "I, I am," they say only a few neurons fire, and they are wrong.

I have told you for many years, it is one neuron, which I call the 'alpha neuron', do you remember?

The first neuron. When you were the spermatozoon swimming, you entered the ovula (ovum), and you became the first cell, and it immediately starting to fabricate, to create the first neuron.

And this neuron is eternal. It means that the little neuron you had when you were a little foetus, is still here; it's still alive inside you.

It is the link between you and infinity. Feel it. Thank you Elohim.

## 40th Year Anniversary of the Raelian Movement in Ivory Coast

Last week was the launch of the celebration of the 40<sup>th</sup> year anniversary of the Raelian Movement in Ivory Coast. Ya Boni, the National Guide, with his legendary dynamism and leadership, launched an impressive program:

“We are in the dynamics of the festivities surrounding the forty years of the Raelian religion in Ivory Coast. Indeed, it was on March 22, 1982, that Maitreya, during his first diffusion visit to Ivory Coast, gave a memorable interview that made the full page of the main newspaper. This article is the magnificent “seed” of diffusion that Maitreya planted in this country. It is the fortieth anniversary of this event that we are celebrating this year. The festivities began on Sunday, January 9<sup>th</sup> with a special gathering of Raelians to pay tribute to Maitreya.

On January 20, we will give a press conference to inform the major media of the event. From February 11 to the 13, all Raelians and supporters will gather in Yamoussoukro, a city in the center of the country, to enjoy Maitreya's teachings, and March 20 will be the climax with the Happiness Day.

All of these events are opportunities to spread the word to all people. We are preparing for the dawn of the arrival of the Elohim in the Embassy.”

Keep on rolling, dear brothers and sisters of Ivory Coast, your laughter and songs resonate in our hearts...
