You cannot imagine the meditations you will have with your brain once you have changed your brain through meditation. It is an eternal exploration. RAEL. Oiso 63 aH

JAPANESE THREE DAY SEMINAR IN OISO

After three days together in Oiso, near Yokohama in Japan, in a nice hotel along the beach, and most importantly with Maitreya Rael, we were 300 happy Raelians who couldn't believe our chance to have witnessed such a fantastic seminar. Each teaching of our Beloved Prophet was so powerful!!! All along we not only felt connected to our parents from space but also empowered by them to do something with our life, something that is part of the plan as our Beloved Prophet said right from the start.

“In life, nothing happens by chance. Everything is organized by the sky. They know you, they know everything about you, they watch you 24 hours a day. If you are here it is because you all have something to do, something that is part of the plan they have designed”.

LET'S BUILD THE EMBASSY IN JAPAN

A huge wave of enthusiasm engulfed the room when Maitreya Rael said *‘My dream is to build the Embassy in Japan’*.

A very powerful speech that definitely moved everyone:

“Everyone of you here should have this dream. The power of a dream is so strong, if we dream it every day, we can do it. The Elohim say that it would be good to do it in Israel, if possible, but Israel has already refused seven times. If Japan accepts to do it, we will ask Israel one more time. If they refuse, then we can build it here.

I am almost sure they will refuse. The Elohim called them the stiff-necked people in the Bible... We are more Jewish than the ones in Israel. To be Jewish is to love Elohim and to be ready to welcome the Messiah and build the third Temple. Since they said no, then they are not really Jewish, they just claim to be Jewish. We are the only people on Earth thinking every morning: ‘Elohim, I want to welcome you’, loving the Maitreya, willing to build the Temple. Only us, the Raelians think that way, every day of our life. Because it is your dream, you are the real Jews.

You also need to remember that Japan has a special place for the Elohim.

The Apocalypse era started here in Hiroshima, not in Israel. Also it was said to happen at the 666th generation of the human being. At the time of the Hiroshima bombing, the Emperor was the 666th after Amaterasu. So there is a real chance that the Embassy could be built in Japan. I am confident that we can do it together!

He also reminded us that Raelians have a huge influence on the Planet.

“Scientists, artists, politicians, they all know about us and we are changing them. Even if they laugh at us, they know us. Some may say that we are ridiculous, making fun of us, but inside, when they are alone, some say ‘what if it was true?’ They won’t say it publicly but inside, they know it makes sense. Many are like that in the world. Some of you were the same, you didn’t want to tell your family, your friends. It may have taken you 20 years to come here. Remember, for one who says ‘OK I am Raelian’, 1,000 don’t dare to come! They are however helping us to change the Planet and to welcome the Elohim.”

FINANCIAL CRISIS

Maitreya Rael also talked about the Financial Crisis that our media cover at length at the moment.

“We are living in an interesting time. The financial world is in big trouble. People live a terrible drama as the economy collapses but we, Raelians, are laughing. We have been waiting for it. The Monetary system is broken and what we see now is just the beginning. The messages have announced it and we know that the only solution is a World currency. Soon the dollar will be worth less than the paper it is printed on. And it is the same for the Yen, the Euro, all the currencies. They have no value. Soon they will be completely destroyed. It will be painful for some. The stock-market is plummeting, people are losing their job, but this is very positive. It is like when a woman gives birth, there is pain but at the end there is a baby. We are witnessing the birth of a world currency.

Once established, the next step will be to have no money at all. It is coming very soon. It is the beginning of the Golden Age. Raelians rejoice because we know that it is coming. Money and politicians create violence, jails and criminals. Without money at all, there won’t

be crime anymore, except of course for a few unbalanced people who will need to go to hospitals. But if there is no money anymore, we won't need jails. No one will need to steal anything since everything will be available for all. Cars are already made by robots, we don't need to pay robots and why should we pay to enrich the owners of the robots. Cars could be made available for all and no one would try to steal somebody else's car. Same for money, if there is no money, no one will try to steal it.

The real values will then reappear. Gold, money, power, this is bullshit. If you don't need money, what do you want?

Love...

Art...

As you don't have to go to the office or the factory anymore, what do you do? You learn how to paint, to dance, to make music. Once done, once you have achieved a piece of art, you cannot sell it since there is no money. So you will give it to someone you love.

Love is the only way.

A world without money will bring love to every-

body. It will happen! It is the only way to escape destruction. To destroy money and work is the only way to save the Planet.

On the Elohim's planet, there is no money, no work, They do art, love, meditation, happiness. It works... it is the best way to be in harmony with the Universe.

WORK IS SLAVERY.

You are a slave when someone owns you and you are forced to work. The company you work for owns you. It gives you enough to survive. Just like the slaves in the past had food and shelter. Workers of today are slaves. In the past, in order to control slaves, they had big fences and guns. Now to control the slaves, they don't need fences anymore, they have credit. 30 years of slavery to pay for your house. For 30 years you won't escape. Every month you pay for your car, your HDTV. The government and the advertising companies have transformed you into slaves. Aren't you tired of being slaves? People think it isn't possible to escape, even you think it isn't possible. No, it is possible. We don't need to work, we don't need money.

Robots, computers and nanotechnology combined can do everything you do, even better than you do. Surgery is a good example, robots are often better than surgeons. If computers can do the job, we don't need to do it. And since robots don't need to be paid, we don't need money. We can enjoy everything for free. It is coming very fast. The economy is crumbling down, it is happening, all by itself!

You do not panic because you know it brings a world without money or work as the Messages of the

Elohim announced it 35 years ago.

People are worried when they hear about bank bankruptcies. When you see it, rejoice!

It is bringing what I described to you: a world without money, politicians, army, violence; a world where we can enjoy life and give love. It is coming because money is collapsing. We are living the most exciting time in the whole history of Humanity.

Let's thank the Elohim for this teaching which helps us live this fantastic time!

THE CATERPILLAR TALE

Maitreya guided us through some meditations and he commented on how we can change our brains in the process...

“Can a caterpillar fly? No, but it will become a butterfly. The caterpillar doesn't know it can fly. The second genetic code, the one of the butterfly, will start only when ready. The brain of the caterpillar and of the butterfly is very different.

Imagine you are the seed of a tree underground and you start to grow, to have a trunk, then a few leaves, then you reach a point where you can have flowers, very few, and then fruits. Much later the tree produces 100 kg of apples... When we start meditation, the brain cannot imagine how the brain will be after a long term meditation.

With little connections comes small power. Much later, after years of practice, you will feel one with the Universe, with other people; just like violin players take years to develop their violin brain.

Meditation is good for that; you see one side and the other side as well. You are a caterpillar becoming (A) butterfly. My goal is to make you all butterflies. When the butterfly flies higher, it sees the Universe... you will feel one with others...

It will seem difficult at first, you understand but you don't feel it. It is like playing piano without training, it isn't too beautiful. But after 20 years of practice, you become like Cameron. It is the same with meditation. People think that you just need to sit and you do it. To become a Mozart of meditation takes training. Every day a little bit and when you are a butterfly, you will see something very different.”

“You cannot imagine the meditation you will have with your brain once you have changed your brain through meditation... an eternal exploration”.

Japanese Seminar was held on 1st, 2nd and 3rd of November. There were 278 participants including 30 non members. Each day was filled with exceptional, literally cell vibrating teaching from Maitraya and Brigitte. We welcomed 10 of new international Raelian members to our family. This seminar was a very special one for us, Japanese people.

Maitreya announced that we will start “ Build the Embassy in Japan “ campaign this year.

Also he mentioned that Amaterasu will be among them when they arrive at the Embassy.

Amaterasu(Sun Goddess) and a Japanese male mated and their first child became the first emperor, according to the shinto myth, so it can't be a coincidence that Maitraya was born in the year of the emperor of 666th generation.

As Maitreya reminded us during the seminar that we, each one of us, build the embassy in our heart first, then after that, we visualize building the embassy here in Japan each day.

“Are we truly ready to welcome Elohim in heart, if they arrive tomorrow?”

This is the question that we keep asking to ourselves everyday, so that we will stimulate our consciousness to reach higher and grow faster. We begin the preparation of welcoming Elohim in our hearts.

Maitraya Rael, we feel such a privilege that we can spend time together in this era, such happiness and such love.

We love you, our Beloved Prophet Rael.

Kumiko

Michio, National Guide of Japan wrote right after the seminar:

“I can't forget the moment where Brigitte and I could not stop laughing in the lecture after Maitreya's imitation of Robert Begnini on the stage. I disturbed Brigitte's teaching with my non stop laughter, and Brigitte couldn't stop laughing looking at me also. When it was happening, Maitreya said to me 'it's the best seminar ever'!

Yes, we laughed and cried of happiness. Michio's tears moved us all when he thanked our Beloved Prophet at the end of the seminar and our Beloved Prophet told us all that ,with Michio, he felt like being with a brother...

NEWS AND VIEWS

CLIVE MAUND

To keep on the subject of the economy here is what Clive Maund, an economist, posted on a website on November 20th:

“After years of exponentially expanding profligacy based on unbridled expansion of the money supply and debt, the Fiat Money system has run out of track and is disappearing straight over the edge of the cliff. Most politicians and World leaders can't grasp this simple fact, their

thought processes are rooted in an era that is now coming to an end - so their futile attempt to return to “business as usual” by means of zero interest rates and unbridled money supply expansion is having no effect - this is because in the same way that you can take a horse to water but you can't make it drink, you can drop interest rates to zero but you can't force people to borrow. The only hope for business leaders now is that aliens from another planet where interest rates are 10% or more land and

they can get a carry trade going with them. Apart from that remote prospect we are staring straight down the barrel of a deflationary depression. Mr Barack Obama is about to inherit the biggest mess in history. One of the ultimate consequences of all this is a probable return to a gold standard, or at least something that re-establishes a linkage with the Precious Metals as an anchoring store of value. This is the last thing politicians want - discipline and restraint are not their cup of tea at all - and they can be expected to resist this with all the means at their disposal, but the implosion of the Fiat money system, which is now so overextended it is dissipating and collapsing back in upon itself, will ultimately leave them no choice. Thus, while gold would clearly benefit from an inflationary environment, it will probably end up doing even better in a deflationary one, especially where interest rates are close to zero, and we should not overlook that in a deflationary environment even if gold falls in nominal price, provided that it is falling less fast than everything else it is actually gaining in value. Finally GOLD IS MONEY - paper currencies come and go and when they are abused, as is inevitable in a Fiat system, they end up worthless, which has happened many times in history. This is why those gold holders who truly understand its value couldn't give two hoots about its price in paper money."

Our Beloved Prophet commented as follows:

According to this economist only extraterrestrials can save the monetary system... he is not so far from the truth....except that they will help destroy totally the concept of money.

And yes, for a little while, gold may be a safe-haven for people who have savings and to help them to be less affected by the cataclysmic crumbling of the world financial institutions which is only beginning. Because you cannot print gold overnight.

But in the end, the very concept of "money", made of paper or gold or whatever else, will simply disappear, because when robots, computers and nanobots produce what we need, there is no more reason to pay for it and make those who own the robots richer. And because if no employees or workers are required to produce things, then nobody gets paid, so nobody has money to buy it.

Then the only valuable thing will be love and a huge reeducation of humanity will take place in a society providing everything we need for free for all human beings.

Until then, replacing your paper money with gold is a good idea. And when gold will also lose its value, you can still melt it down to create beautiful pieces of art that you will be able to offer as a gift to the people you love.

RWANDA'S CHIEF OF PROTOCOL ARREST IN GERMANY IS "JUDICIAL COLONIALISM".

Rwanda's chief of protocol, was arrested on Sunday upon her arrival at Frankfurt Airport under a French-issued arrest warrant for her alleged role in the assassination of former President Juvenal Habyarimana. Upon learning of the arrest, our Beloved Prophet described it as "yet another act of

judicial colonialism”.

He said:

“African judges should reply by launching international arrest warrants against French individuals suspected of having committed crimes in France. If it works one way, it should be reciprocal. If not, it’s pure colonialism.”

“All other African countries should cancel their diplomatic relations with France as an act of anti-colonialist solidarity.”

On the day following Kabuye’s arrest, the Rwanda government expelled Germany’s envoy and recalled its own ambassador from Germany, and the African Union released a statement expressing “dismay and concern” over Kabuye’s arrest, saying she should have been entitled to immunity since she was on official business.

Rael applauded the Rwandan government’s decision, calling it *“a great move in the right direction.”* He urged all African countries to act in solidarity with Rwanda by cutting diplomatic relations with both France and the European Union.

“Kama, Africa’s real name before colonization, doesn’t need Europe,” he added. “By building relationships with countries such as China and India, it can easily replace the old colonial masters, who behave as though they still own Africa. As ex-colonized countries themselves, the Asian countries have a better understanding of and a real respect for African countries.”

RAEL: AFRICAN CHILDREN KILLED FOR ‘WITCHCRAFT’, ANOTHER CRIME OF COLONIZATION

Thousands of children in the Niger delta of West Africa suffer intolerable cruelty at the hands of so-called Christian pastors who proclaimed them witches. Banking on the fears of superstitious people, they offer expensive exorcisms during which they torture the accused children and sometimes even kill them.

According to a recent documentary aired by Channel 4 in the UK, a man from Ibaka in Akwa Ibom, who calls himself “the Bishop”, has made a fortune conducting “exorcisms” of children, claiming that they are possessed by the devil and eat human flesh. He told a reporter of Dispatches that he had killed “up to 110 people” who were identified as witches.

In an official statement last week, our Beloved Prophet outlined that the roots of such a horrible plight come from the adoption by the people of Kama of the religion of the colonizers.

“By adopting the religion of their colonizers, they betrayed their ancestors. The African people should apostatize massively from such a horrendous religion which practices infanticide in the name of god while racketing the population with their superstitious practice!”

“Traditional religions of Kama have never been bloody” says Uriel Nawej, specialist in African

culture and a Raelian bishop. “They had past religious practices to help those who they believe, were possessed, but they never practiced such tragic witch-branding on children and they never kill anyone possessed by ‘bad spirits’”.

“Only a barbaric religion like the colonizers’ religion, -the Christian religion-, could bring such a horrible practice’ said Rael. *“Christians behave in a much more primitive and barbaric way than the supposedly primitive populations they pretend to ‘civilize’.*

The Prophet Rael has expressed his support to Sam Itauma who runs the Child Rights and Rehabilitation Network (CRARN), a makeshift shelter and school in Eket for 150 children who have been deemed to be possessed.

COSPLAY, A WONDERFUL TREND

Cosplay, short for “costume play”, is a type of performance art whose participants outfit themselves, with often-elaborate costumes and accessories, as a specific character. Characters are usually sourced in various Japanese and East Asian media, including manga, anime, tokusatsu, comic books, graphic novels, video games, and fantasy movies. Other sources include performers from J-pop, J-rock, Visual Kei, fantasy music stories (such as stories by the band Sound Horizon), novels, and objects from cyberspace or the real world that are unique and dramatic (especially if they have or can be given an anthropomorphic form). This is the definition given in Wikipedia about this worldwide phenomenon where mainly young people choose to wear very elaborated outfits that have nothing to do with traditional outfits.

Rael who is visiting Japan at the moment, after seeing some of them in the famous Harajuku area commented:

Cosplay is a wonderful trend which helps people get out of conventions, tradition and the dictatorial and intolerant “good taste” concept. It’s so good to see in the streets of Tokyo, thousands of young people everyday wearing it and great that it starts also in many other countries.

Maybe finally the “good taste” dictatorship of the ugly three piece suit and neck tie for men and of the Chanel “tailleur” for women, which both were imposed on the world for more than a century, will finally disappear and be replaced by fantasies, color and creativity like it was the case for thousands of years all over the world.

When people express themselves through clothes with original colors and shapes and stop conforming to a unique model of almost military uniformity, then the world can become a much more peaceful place and each human being reinforce his own creativity. It’s time for the whole world to abandon the European ugly three piece suit and necktie which were mainly imposed through colonialism, and rediscover their much more beautiful and colorful traditional clothing. Already in Africa more and more people are abandoning the European dress to go back to the colorful traditional African attires. It is the same in Asia where the kimonos have always been the most beautiful dresses in the world making the European three piece suit look

ridiculous. Finally thanks to the young generation it may be the beginning of the end of the ugliest fashion of all times: the European suit for men.

Be yourself and do everything you can to stay away from “good taste” which is just a normalization denying other people the right to have different tastes, or just to BE different .

RAEL APPLAUDS QUEENSLAND’S MONTH-LONG, NUDE, ‘ANYTHING GOES’ PARTY INITIATIVE; CONDEMNS CATHOLIC BISHOP’S ‘INCITATION TO HATRED’

Rael sent his personal support to Tony Fox, the owner of a controversial holiday resort in northern Queensland, Australia.

Fox has decided to temporarily transform his premises into a hedonistic resort where “anything goes for a month” during March 2009. According to a local newspaper, inquiries and reservations at the resort are skyrocketing, and the local bishop is in dismay over “the moral code of behavior” exhibited by those planning to attend.

In a statement released last week, Rael strongly condemned the Bishop of Cairn for “trying to impose Catholic Talibanization on a society of people who either aren’t Catholic or who freely choose not to respect the moral code the Catholic Church is trying to impose.”

He said:

“The way this bishop libels people intending to stay at the resort is a clear incitation to hatred toward both them and Tony Fox. I ask, one more time, that all people recorded as Catholics merely because they were baptized at birth without their consent, to apostatize from the Catholic Church. Send your apostasy form to your parish so you can freely live your life far away from this dictatorially induced guilt and the spreading Catholic Talibanization. And then freely enjoy a beautiful and free sexual life, which can include homosexuality, birth control, abortion and sexual equality – among other things condemned by the Catholic mullahs. Just like today’s Taliban leaders, who kill those who don’t follow the fanatical Muslim rules in Middle Eastern Muslim countries, Catholic leaders would love to see the Christian world back to the time of the Inquisition, when they were able to burn alive those not respecting their dictates. The only difference between the Muslim authorities and the Catholic bishops is that, thankfully, Catholics aren’t in power anymore. All citizens of free countries – whose constitutions provide for separation of church and state – should be very active in ensuring that a return to Catholic power is never allowed to happen.”

THE WORST RISK IN LIFE IS NOT TO TAKE ANY RISK AT ALL

BBC News reported that extreme kayakers have been threatened with legal prosecution for canoeing down Llyn Brienne, a steep-sided, 272-foot-deep reservoir in western Wales that holds more than 13 billion gallons of water. The location has been attracting risk-loving kayakers for years.

Welsh Water, the company that owns the site, told the BBC it forbids such water sport activities

at the reservoir and that it would take action against anyone found to be in violation of this restriction.

“This is yet another attack on individual freedom by rigid administrators,” Rael commented in a statement released last week. “Every individual has a fundamental right to endanger his or her own life, whether by climbing mountains, sailing across oceans, racing cars or participating in any other exciting, risk-prone sport.”

He said the drawbacks of risk avoidance more than outweigh the benefits of a safe but stultifying existence.

“The worst risk in life is not to take any risks at all. The sanitized and sterilized nature of our present civilization makes people look like overprotected consumer zombies who behave like robots. For example, the water company said its restriction is to keep the kayakers ‘from endangering the lives of others.’ Well, who are these others they speak of? Nobody else is even out there on the water. Instead of condemning this activity, the company should sponsor the kayakers. That would set a wonderful example for the younger generation.”

He said he encourages young people to take risks such as those taken by the kayakers publicized in the BBC report, including those involved in climbing buildings, engaging in free fall or participating in any other extreme sport. “Such pursuits develop much stronger personalities and can motivate young people to take on new challenges.”

STEM CELLS AND PUBLIC PERCEPTION

Last June a pioneering windpipe transplant was carried out by doctors in Barcelona for which stem cells grown in a Bristol University lab had to be flown ahead. Doctors claim they sought special permission for a package containing the 60 million cells to be transported from Bristol on an EasyJet flight. But staff from the airline allegedly refused to allow the package on board claiming that because it contained more than 100ml of fluid it “posed a security risk”.

The cells, which took five months to grow, had to arrive in Barcelona within 16 hours of their removal from the Bristol lab before becoming unusable....

The scientists had to charter a private jet in order to get the cells to Spain on time.

Our Beloved Prophet commented: *that proves how misinformed the public is regarding stem cells, which they believe might be dangerous, while they are just like regular cells, similar to every “normal” organ transported everyday by all airplanes around the world. Media have a great responsibility in this misinformation!*

NEWS FROM THE RAE LIAN PLANET

OCTOBER 7TH IN JAPAN

On the day of the transmission, October 7th, even though it was on a weekday, 130 Raelians gathered around the Maitreya to celebrate this anniversary day.

Eleven people (six women, five men) received the transmission from the Maitreya and were welcomed to our family. Also Satoshi Miyahara, who newly became the National Guide of Thailand, was empowered on that day.

After the transmission ceremony, the Maitreya shared the teaching of happiness with us.

“Many people who are here today must have wondered at least once what the purpose of life is or what is the meaning of living on this planet? Why do we have to go to work, why am I alive? Most people don't know the reason, and because so many people don't know the answer, so many people commit suicide in Japan and thus making Japan one of the countries with the highest suicide rate in the world.

If you don't know the purpose of life, it is hard to live, so you feel like killing yourself. Many people fill the void by owning big houses or expensive cars, but these things won't make us feel real happiness.

So what is the best way to be happy?

It is to stop thinking about yourself, and start thinking about others and about how you can make them happy. Only this way of thinking can make a positive change in your life. We are gathered here for this reason.

So what is the best way to make others happy? It is to give the Message of the Elohim to them. Without the Message, people will tend to believe in God or Evolution.

Christianity and other one almighty-god religions planted the sense of guilt into people's mind in the name of God. Also believing in Evolution certainly won't make you happy. How can you be happy thinking and believing that your great-grand fathers were monkeys?

The Message of the Elohim, this will make a change, it will change the way you look at things in life. We are alive and exist because we were created and loved by our creators. And one day, we also will scientifically create other life in the future.

By cultivating these thoughts, young generations will soon dream about creating new life on another planet. Looking up at the starry night sky and wondering about space travel, having these dreams and hopes, we can live happily.

We are not born just to be workers, or just to make money or get depressed. We were created for happiness and pleasure. We can stop suicide by teaching our children about all these things.”

After the Maitreya’s speech, Rafy, Japan’s level 4 guide, sang his original Elohim song. And then, Maitreya sang a few songs and vibrated us with his singing voice!!!

He always sculpts the neurons of happiness to our brain.

Dear beloved Maitreya, thank you so much for brightly lighting our lives.

We love you.

Michio

CELEBRATION OF OCTOBER 7TH, 63 IN ROME

On October 7th, we celebrated in Rome the 33rd anniversary of the second encounter of our Beloved Prophet with the Elohim.. / On that occasion, we had the great honor to receive our National Guide, Marco, and the Roman team did its best to welcome our bishop guide and all those coming from afar. The program of the day was rich in many ways but the most moving moment was at the time of our ‘rendez-vous’ with the Elohim, our Creators, when two amongst us decid-

ed to send their love signature to the Elohim by recognizing them officially as the Creators of Humanity through the transmission ceremony, the Raelian baptism or shall we say, the demystified baptism. Antonio from Sicily and Laura from Argentina both joined our wonderful family. The day went on with a delightful buffet followed by the delicious teachings of the Elohim through some videos showing our Beloved Prophet as well as speeches by some Guides. The atmosphere was full of love, the theme of the day, to celebrate the love that the Elohim sow on our planet with

their Creation at first and then with the pearls of wisdom they transmitted through their messengers, the Prophets. When they brought their last Prophet Rael on their planet, 33 years ago, it was to prepare him to transmit these pearls of love!

A special thanks to all the participants for having lit the firework that each one of us have inside and for making this day a shining celebration, the best way to express our love to our fathers from the sky!!

Love&Kisses... Roberta Pucci

MY FIRST TRANSMISSION IN SERBIA

Hello from Serbia!

Maybe you don't know, from this seminar onwards our Beloved Prophet gave permission to National Responsibles to do transmissions even if they are not Guides...

For Serbian people it meant a lot because people have problems with documents and visas...they can't travel...

I met this wonderful boy (Dimitrije) who studies astronomy and he wanted to do his transmission...

He will come to the next seminar in Lendava to meet the Prophet :-)

So, Giovanni and I went to Serbia to meet him...

Thank you my lovely Prophet because you give me such a wonderful mission :-)

Lot's of kisses from Giovanni and I from Serbia

Sanela Porcasi

KOREAN RALIAN TEAM PARTICIPATES IN MARATHON

On October 12th Korean Raelians participated in the marathon race of the 'Hi Seoul festival'. The festival is a very big and famous event in Seoul, Korea. Nine Korean Raelians participated in the 10 kilometer race.

During the race, they wore the symbol of infinity on their chests as well as an image of a front cover of a book which contains the Messages on their backs.

Some people seemed to be surprised and interested in our members.

When the race started, the anchorperson shouted "Cheer up! Raelian!"

It was such a sunny day, and our members enjoyed the race along beautiful streams and flowers.

After the race, they had time for telepathy and a sweet rest taking a nap in the park.

Even then they were present at another diffusion for a revision campaign of science textbooks.

What an amazing and energetic group of Raelians!!

The team always enjoys sports like soccer and spreads the message to those who are interested in it. We will keep on spreading our Message and love to people.

A COUNTRY OF CULTURE OF “BEING”. A FOUR-DAY JOURNEY IN BHUTAN (OCTOBER 5-9).

By Navi, National Guide of Bhutan

Bhutan is a Buddhist country well known for gross national happiness(GNH) and a non-smoking country.

I had the special opportunity to visit the country for four days, from October 5th to 9th.

In the Message, the Elohim mentioned a special book called “Bardo Thodol or Tibetan Book of the Dead”. This is the only book that shows the Star of David and the Swastika (Symbol of Elohim).

The Tibetan Book of the Dead is so famous in Tibet and Bhutan that most people recognize it and one can recognize the Star of David and the Swastika, the infinity symbols of the Elohim (the official symbol of the Raelian Movement) in it. I could find traces of the symbol of infinity wherever I visited in Bhutan last year and this year.

On the first day of my visit, I visited Kuensel, the National newspaper in Bhutan, and met Chencho Tshering the Director. I gave him the Messages - The Maitreya (1), Yes to Human Cloning (1). He welcomed me with smiles and harmony. I told him that the Maitreya is already here on Earth and Extra-terrestrials look similar to Asians.

The next day, four Bhutanese people had their transmissions done. Some of them are students from India, so they came to Bhutan from Kolkata, India for a couple of days by train.

They already knew that the philosophy of the Raelian Movement resembles Bhutan Buddhism, and wanted to become members of the Raelian Movement. It says that they agree with the essentials of the Message that all religions on the earth come from one single original root.

During my visit to Bhutan, I got help from a young tour guide. Showing the Message, I asked him if it is ok to spread it to Bhutanese people. He answered without any hesitation that “this message is related to Buddhism so it is no problem.” The same answer as last year! He helped me voluntarily;

he strongly supported me, too.

Bhutanese people are especially friendly to foreigners and very kind.

During this visit, I also had the chance to meet Khentrul being called “Rimpoche” (on the picture below with Navi) at the Bhutan National Airport on 5th, October. He invited me very kindly for lunch on October 7th. And I could talk with him and his friend, a Bhutanese Lama, closely.

Khuentrul is Bhutanese and the Chairman of the Buddhist monastery in Taiwan. He was very feminine, kind, and warm.

On the flight leaving Bhutan, while seeing the huge rivers and mountains of the Himalayas wearing white clouds as well as small and rare houses, an idea hit me, suddenly:

 All people will respect, understand, and love each other, then this planet will be full of happiness without any war.

I could find hope for Humanity during this visit.

The Raelians who live here and I will devote our whole efforts to make all Bhutanese read the message of light, which has been waited for them, leading official acknowledgment of the Raelian Movement by the Bhutan government.

In December 2008, there will be the coronation of the 5th King, Jigme Khesar Namgyel Wangchuk.

People reckoned that Bhutan will prosper on the spiritual side as well as the economic one thanks to the new constitutional monarchy.

Let me bow as a mark of thanks for the love, purity and passion for humanity during the last 35 years from the Maitreya Rael who has devoted his whole life to spreading the message of love and non-violence on Earth.

And also, I want to show the extracts of Our Beloved Prophet’s speech about Bhutan in August, 2006.

“Bhutan thanks to its wonderful King is the most beautiful example in the world of what this planet needs: giving priority to a culture of “being” instead of a culture of “having”. A culture

of “having” creates wars, genocides, pollution and chaos through the illusion of happiness coming from outside. A culture of “being” creates a real happiness coming from inside, peace, and harmony.” “The policy of Bhutan which focuses on inner contentment rather than money is an example to the whole world.”

Maitreya RAEL,2006

Our Beloved Prophet sent his congratulations to the new King of Bhutan a few days ago while the Western media chose to criticize the grand aspect of the celebration.

QUEBEC STYLE DIFFUSION IN A SWITZERLAND AT WAR

During a romantic journey in Europe, I was given a ‘rendez-vous’ at a place called ‘Buffet de la Gare’, in G’nèv (this is how they pronounce Geneva over there). Curiously, while looking for the premises, I learned that it didn’t exist anymore. After asking several times, tired of searching, I was finally told that it was previously in that cafe within the station that is now called Passaggio.

On the following week, by mistake, thinking I was going to the airport station, I ended up again within that train station into the Passaggio. I don’t know anything about Geneva, except that transit café (and the Rolex shop window with a very modest \$96,800 unnecessary watch). As I was on vacation and I didn’t have any wine since I arrived two weeks before, I decided to have fun and order a glass of red wine to kill the two next hours of waiting. Mr. Roger to whom I ordered the wine, a sympathetic employee, told me that he recognized my Raelian symbol which I have worn outrageously since my arrival in Switzerland. Actually I had brought only T-shirts portraying our different Raelian actions with me, like: Ufoland-Rael, RAEL-Miami Beach, Rael Racing Team, Mediashit, etc., and I always wear my coat with an embroidery on its back that reads: WWW.RAEL.ORG - The last Prophet.

When my hostess of the day, Lilou – thanks Lilou and Philippe for your patience- finally arrived, she told me that this place was the exact place where Philippe Chablot was denied a beer because he was Raelian. I was completely flabbergasted since, during my brief stay, I had been able to talk pleasantly about my philosophy to Mr. Roger, a magnificent waiter of African origin, to Sylvie, one of the waitresses who told me that she was from Vichy, explaining to me that it was the city where Rael was born (she even came to me later to give me a message from Lilou who couldn’t find me at the airport hihhi), to a couple of Africans from Togo who told me he knew of the symbol I was proudly wearing - those who know me know that I never go anywhere without saying that I am Raelian... (never Martine ;-), to a sympathetic Swiss girl who reminded me of a Quebecer in the month of January with her warm hat (it was only the end of October), to Mr. Armand, a regular of the place according to Sylvie; an interesting man who dared to come and talk to me at my first visit. He probably dared because of his physical handicap in a country where all seem to me handicapped from simple human contacts, like a glance, a hello (only in Geneva, of course, dear Swiss friends).

I have always dreamt to go and ask for a drink in the place where it was refused to Philippe, so you

can imagine the pleasure I felt when I learned that, thanks to our actions to show what is right and our pride to be Raelian, I was able to peacefully drink my glass of local wine and happily talk about my philosophy, even to the employees of this new business, while ignoring that just a few months ago I would have been 'persona non grata'. Thanks Philippe for the fight you lead and that seemed like a defeat to the media. I assure you that the place is quite welcoming and I invite you to have a beer on me there. Thank you Martine to have allowed me to have this moment of Raelian joy that one experiences only when living it. European Raelians, Raelians from everywhere, do not fear showing who you are, people do not react the way the liar-media try to portray them!

Thank you Beloved Prophet for allowing me to know such wonderful people all over the planet. Dear brothers and sisters, never doubt about it, despite the pollution from your harassing environment; walk proud, always showing your wonderful difference. We share the same goal to have the truth about our origin known and to prepare the welcome of those who came from the sky to create a garden that they lent to us for a while. It is that goal that unites us, Raelians of the world.

I love you Raelian brothers and sisters and I thank you for standing up when offended by injustice and for asking for respect, together, in view of this historical moment to come which we worship with a sincere love, without mysticism.

As I had to commute in Amsterdam, I had some time to visit this very nice airport where I was surprised to see a sign showing 'Meditation Center'. It is actually a place dedicated to all those who want to meditate or pray, whatever their religion; it was a great opportunity for me to go and practice my five daily meditations. Surrounded by three praying Muslims on their knees and a Christian who was sitting, reading his bible, I took a comfortable position in front of a large picture of the symbol, an essential accessory of a journey. Interested by this great initiative, I chatted at length with the man in charge of this meeting place who explained to me that the center was intended to bring human beings from all religions and all practices, closer, without any discrimination. He expressed his interest in having a copy of the Messages in order to have it available in the library, for people having a break there to use. When you go through Amsterdam airport, do not miss the meditation center and let me know if the French and English copies of the messages that I sent right away after my arrival, are displayed there.

I love you... from the most incredible adventure that we will offer to the whole of Humanity!

DANIEL BARENBOIM RECEIVES THE MESSAGES IN PARIS

Director DANIEL BARENBOIM, nominated Honorary Guide by our Beloved Prophet last January for his actions in favor of peace in the Middle East (see contact issue #345, ‘ A True Israeli Gandhi’), was in Paris on August 25th for a great concert at ‘Salle Pleyel’, the last performance of the 2008 tour of the West-Eastern Divan Orchestra. This orchestra, created in 1999 in order to promote peace between Israeli and Palestinians, now counts some 80 musicians from Israel, Andalusia and several Arabic countries including Iran. After an afternoon meeting with Nicolas Sarkozy, the French President, to whom he defended the creation of a cultural Israeli-Palestinian TV channel, Daniel Barenboim was about to meet, in this historical place for us Raelians, two individuals who were much more important than a chief of state.... two messengers of the last Prophet, PHILIPPE LEVAUX and NADIANA WAKIM, who gave him the Messages as well as several important letters. Here is their testimony..

It was an extraordinary concert with Daniel Barenboim and his orchestra formed of young men and women from the whole Middle East.

What a joy to attend such a concert! Daniel Barenboim is a true Honorary Guide in action.

At the end of the concert, the audience applauded for about half an hour; not only for the remarkable quality of the concert but also because Daniel Barenboim hugged each one of the musicians of the orchestra. I couldn't stop being moved while looking at him, I was thinking of our Beloved Prophet who has often given us such particular attention and who gave his first big conference right in that same location. It was like a first big cycle was completed!!!

We were in the second row and Nadiana Wakim was able to offer him the English version of the book and the letters.

Once he had hugged everyone, Daniel Barenboim talked to the audience in impeccable French. He explained that it was the last concert of his tour and that was the reason why he hugged all the members of the orchestra and he congratulated them to be there as they are all at risk after being part of this tour since their countries are at war and they are forbidden to meet. The only place where they could do it was this orchestra. Daniel Barenboim added that his goal was to offer a third way. Not a political one, not a military one, a way to live side by side, to live together!

Love

Philippe Levaux and Nadiana Wakim

and the whole French celebrity team managed by Jean-

Pierre Saulnier

DIFFUSION AT THE UFO MONUMENT IN MEXICO!

It is my pleasure to inform you that I visited the house of culture of the city of Cuautla... It is possible to leave pamphlets describing the Movement there. Isn't (IT) wonderful?

Also on November 9th, I went back to the UFO monument of Me-tepec, where I met a Cuban professor of construction and several young people interested by the UFO phenomenon thanks to our diffusion! It was a perfect day of diffusion!

Fathers Elohim, I am eternally grateful for the teachings that you offer me on the way to the Embassy.

Nicolás Ortiz, guide assistant

IN ARGENTINA

Dear Brothers

I salute you in the love of Elohim...

On September 10th, the responsible for Human Rights from the Ukrainian government, Mrs. Nina Karpachova, was visiting Argentina. I had the great pleasure to discuss with her and took this opportunity to talk to her about the Raelian philosophy and our Beloved Prophet Rael. I also gave her two books, 'The Message given by Extraterrestrials' and 'yes to Human Cloning'. She was pleased to receive them. That was

another way to have the Messages shine and to let people know that we are working at full pace for Humanity.

Kisses from Buenos Aires., Roly Cordoba, National Guide of Argentina

BENIN

Fikira, trainee-Guide from Benin, an artist and an increasingly famous singer in his country, was nominated best African Reggae singer at the Kora awards , see link below and a YouTube video with a surprise at 2 min 57 sec -))

A NOTICEABLE COME BACK FOR ARAMIS AT THE MONTREAL GAY PRIDE

By Julie-Maude

After three years absence, Aramis enabled the Raelians to make a noticeable come back within the LGBT community of Montreal.

In August 2004, the organizers of the gay pride had excluded us, asking us not to come back the following year as they didn't like our slogan stating that the pope is the #1 sponsor of Aids. In 2007 the same organizers decided to not take part in the Montreal Gay Pride anymore. A Raelian girl who is very active in the Gay and Lesbian community of Montreal, participated then in the creation of a new association which would take over the organization of the community day and the parade.

She took that opportunity to make sure that the chart of the association includes a statement against any discrimination, whether racial, sexual and of course religious.

The result was impressive. When we register Aramis to get a booth during the community day, we were so nicely welcomed that they even invited us to be part of the parade! Which proves that nothing is constant and the wind is starting to blow in another direction...

On August 16th, Aramis responsible for Montreal, the charming Véronique, with Aramis responsible for Canada, Fabrice, prepared a superb stand, on Ste-Catherine Street. A manifesto has been proposed to the public, inviting them to "Break the chain of discrimination by loving differences" whether they are differences of culture, gender, orientation, philosophy or religion, asking them to sign a huge banner that would be unfolded during the parade on the following day. About 60 people committed with their signatures with pleasure. Even the Mayor of Montreal, Gérald Tremblay, has agreed to have his picture taken in front of our stand! A first...

The day after, at the parade, about twenty beautiful Raelians full of enthusiasm spread this message of love of differences and showed with their revolutionary harmony and their joy for life, their total commitment for this cause. Then, as a warm-up for the Gotopless day that was planned a few days later in the US, several of our brothers and sisters went on and showed their breasts through the whole parade under a burning sun. The welcome and support from the crowd - especially from the women- when seeing the naked breasts was splendid.

In summary, we made a noticeable come back that moved everyone.

UTAH – PRIDE FESTIVAL AND INTELLIGENT DESIGN LECTURE

by Riki, Cedar City, Utah USA)

It was Saturday, September 25(25th) in Springdale, Utah – the gateway to Zion National Park. Marching down the main highway were twirling rainbow flags, men in pink boxer briefs and a troupe of boxy, purple robots. Right in the middle of all this was our Raelian float decorated with Intelligent Design and Aramis banners. Three beautiful sexy angels atop the float waved to the cheering crowd as four of our team walked alongside and passed out flyers to the enthusiastic onlookers. A portable audio system onboard the float enhanced the effect with exciting rhythmic music accompanying the sensuous movements of our enchanting angels.

After the parade, we all went to the festival area where a large stage centrally located offered continuous entertainment. Our Raelian booth was located amongst the vendor booths – some manned by non-profit organizations like ourselves while others were selling various goods, services, food, etc. Our booth had a large table in front with samples of downloadable Raelian books and flyers (some specifically explaining Aramis and our philosophy about homosexuality). One corner of the table had a big Aramis poster. A large Aramis banner, clearly visible from the front of the booth, hung from the table as members of our team mingled with passersby - handing out flyers, answering questions, and explaining the Messages. This was an excellent opportunity for publicizing our lecture planned for the following week with posters and flyers printed especially for that purpose.

The Southern Utah Pride Parade and Festival was now in its sixth year with over 2,800 people paying to attend this year's festival. This was more than double last year's 1,000 attendees which is quite amazing, since Springdale is in southern Utah where an estimated 80% of the population is Mormon, mostly religious, and strongly opposed to gays.

Our lecture in St. George was the following Thursday. Eight different radio stations gave us daily spots for a whole week before the lecture, and at Dixie State College, we advertised in the student newspaper and put up 30 posters on every public bulletin board on campus with attached flyers (like mini-posters) that could be taken.

The theme of the lecture was “Intelligent Design = Science”, and it was planned with intermingled speaking, video and slide presentations which altogether lasted about an hour. After discussing the scientific basis for Intelligent Design, Biblical sources were presented that supported Intelligent Design by the Elohim. Finally, the incorrectness of several Biblical translations and the reasons for this were discussed and it was shown that after correction, some of the most central Biblical passages are directly supportive of the Elohim's Messages. After the lecture, participants were

given reference material showing the sources of Biblical quotations, the corrected translations of some of them, and how to obtain further information, etc.

The success of both these events was a result of the harmonious teamwork by everyone involved. The Pride team from Las Vegas included Thomas, Angelina, Heriberto, Juyoung, Martin, and Ouhi; beautiful posters and flyers were prepared by Claude; Becki (the first female Raelian in Utah) helped with everything from media contacts and arranging the lecture venue, to actively participating in both the Pride events and the lecture. Kobi (from Israel) sent some most helpful material that was included as part of the lecture presented by Riki.
