## LET'S CELEBRATE THE FIRST LEVEL OF ELOHIMIZATION ON EARTH !!!

One of the most important information ever, was published this week on Rael-Sciences, referring to an article published on the Wall Street Journal. ( see Antonio Regaldo, "Next Dream for Venter: Create Entire Set of Genes From Scratch", The Wall Street Journal, June 29, 2005; Page A1). ....

**Dr. Craig Venter is moving from reading the genetic code to writing it.**

**This is the level 1 of the elohimization process announced by RAEL 32 years ago!**

Dr. Venter has spent his career studying the code of life, you may remember him as he was the one who published the first officially decrypted human genome in February 2001 with his team at Celera. He now has a new goal, the creation of life itself. Along with two veteran collaborators, Dr. Venter hopes to become the first to whip up a made-to-order bacterium by manufacturing a complete set of genes, or genome, of a single-cell bacterium in his laboratory and introducing it into a bacteria from which he will have remove the genetic information. This will become then the first synthetic creature of humanity!!!

Our beloved Prophet RAEL made the following comment yesterday after reading this article:

*"Finally as I announced it on behalf of our beloved creators 32 years ago, we are reaching the level 1 of the earth Elohimization process: the creation of the first synthetic DNA.*

*We are now like the Elohim when they were about to come on earth to create life a long time ago, and when some scientists on their planet were doing exactly the same thing.*

*What is the next step? Yes, we are already there: some groups totally opposed to the creation of "artificial life" calling themselves "ethical committees", will claim that the creation of beings is the privilege of "god" or "mother nature"...claiming that artificial bacteria can potentially be hazardous to human health. And yes, may be one day (if it didn't not already happened with Aids or Ebola ..) one fatal bacteria will escape a laboratory triggering a planetary interdiction of synthetic life creation which may be voted by United Nations Organization...*

*Then ...scientists will have to continue to experiment creation of more and more sophisticated forms of life somewhere else... that means not on the earth... so, it will be on another planet exactly like the Elohim did a long time ago !*

*This will happen not only because nothing can stop science, but because nothing can stop reproduction at the macrobiological level. It is written in the collective genetic code of the "baby humanity" composed of 6.5 billions cells : us. And nothing can stop the "baby humanity " when it reaches puberty, to reproduce the way macrobiology do it : by creating artificial life on another planet."*

Let's celebrate this important step, the level 1 of the elohimization process... Remember, this is the year of Elohimization.... J

## **WHAT OTHER PEOPLE SAY MAY CHANGE WHAT YOU SEE**

### **About Social Conformity**

A new study led by Dr. Gregory Berns, a psychiatrist and neuroscientist at Emory University in Atlanta, was published June 22 in the online edition of Biological Psychiatry

that cast light on a topic that psychologists have puzzled over for more than half a century: social conformity.

In the study, 32 participants were being asked to say what they see in a picture. Many of the studied subjects caved in to group pressure as 41 percent of the time they went along with the group on wrong answers ( the wrong answers were fake answers given by actors for the purpose of the test).

The study's findings show that seeing is believing what the group tells you to believe. In other words, what you are told can affect the perception of what you see. Using functional M.R.I. scanners that can peer into the working brain, the researchers found that social conformity showed up in the brain as activity in regions that are entirely devoted to perception while there was no activity in brain areas that make conscious decisions. But independence of judgment - standing up for one's beliefs - showed up as activity in brain areas involved in emotion, suggesting that there is a cost for going against the group.

So the unpleasantness of standing alone can make a majority opinion seem more appealing than sticking to one's own beliefs.

The author added: "If other people's views can actually affect how someone perceives the external world, then truth itself is called into question."

After reading this study, the Prophet RAEL made the following comment:

*"This is one of the most important discoveries of the year. It applies to everything.*

*From the stupid American enthusiasm to invade or occupy Iraq in reaction to September 11, or to reelect Georges Bush, or to accept torture in Guantanamo, to the way French speaking media and general French speaking public talk about us and religious minorities at large. Not talking about the acceptation of vague and stupid concepts like "god" or evolution ...or both at the same time...*

*Individually we know that most of the people have sympathy for the Raelians or the Jews , but when they are in groups, they feel that conforming to the group's "anti-raelian" or "anti-Semitic" position will help them being more accepted by the society. In other words "we are better hating with everybody else than loving and being rejected"...We know where that lead in Nazi Germany or anti Christian Roman Empire...not talking about the genocides of Huttus /Tutsis, Serbs/Kosovans, Russians/Chechens etc...*

*What is important is the official conclusion of this scientific discovery: " But if people are made aware of their vulnerability, they may be able to avoid conforming to social pressure when it is not in their self-interest."*

*This is precisely where the medias have a huge responsibility: to inform the people, push them not to conform to politically correct hatred, and educate them for more tolerance, respect and love for the minorities. That's why journalists should be condemned, like the one who was*

*condemned to death penalty in Nuremberg trial just for being responsible for the first German anti-Semitic journalistic campaign. And to a lesser degree too, the pseudo journalists like those of the Journal de Montreal who for 1 week incited hatred against Raelians for no other reasons than the fact that "they were different".*

*The world needs people who educate the public toward more love and respect for differences and teach people to think by themselves, to never follow the flock of "politically correct " hatred, and question politicians, religious leaders and journalists, when they spread hate messages. It is especially important to question journalists, because they have, without having ever being democratically elected, a huge and incommensurable power to create hatred and generate violence.*

*The Raelians of French speaking countries are in the best position to understand this, and inform the public. This information may be a positive aspect for the French speaking countries Raelians, who, after the defamation campaign of the Journal de Montreal, can really use it to inform the public using this scientific study and make people think twice before conforming to "politically correct" judgments against minorities at large and us in particular. From a negative experience can come a very positive result. The Raelians from French speaking countries can enjoy this privilege of acting for the good of humanity by spreading this knowledge being precisely those who suffered from it. In other words we can make our own experience an educational example for the society. And raise the level of love, consciousness and respect.*

*Isn't this what we, Raelians, love more than anything else?"*

## **ALSO IN OUR NEWS THIS WEEK...**

### **About psychiatry**

**Humanity needs abnormality as it is the most beautiful expression of difference.**

The American Psychiatric Association (APA) has criticized the actor Tom Cruise, following remarks he made on US TV attacking psychiatric medicine. Cruise called psychiatry a "pseudo science". The APA answers saying that "Rigorous, published, peer-reviewed research clearly demonstrates that treatment of mental illness works,"

The Prophet RAEL made the following comment:

*“ On this subject Tom Cruise and Scientology are right ! As an example, there is no need to give psychiatric medicine to children with attention deficit disorder who are just bored by the poor content of traditional education. For sure many geniuses were having this disorder ...and nobody would say that giving drugs to Einstein, Beaudelaire, or Mozart to make them "normal" would have been a good idea.*

*Geniality is always built on abnormality. Humanity needs abnormality as it is the most beautiful expression of difference.”*

## OUR SUPPORT OF THE WEEK....

Our support was sent today to **Neta Golan** (on the picture with Arafat), an Israeli Jew who fights for Palestinian rights. She lives in Ram Allah, and she is married to a Palestinian from Nablus, with whom she has two children. Co-founder of the International Solidarity Movement (ISM), she organizes non-violent protests and actions to help the peace process in the middle east. ([www.Palsolidarity.org](http://www.Palsolidarity.org).)

The group supports non-violent anti-wall protests in the villages of Bilin, Beit Surik and Salfit as well as helps protect Palestinian communities suffering from settler and military violence in the Hebron enclave of Qawawis.

She said to an Aljezeera reporter : "A lot of people in the world are not comfortable with the equation that your blood may be worth more than someone else's, but that is the reality. And to me, that is definitely the new anti-Semitism: anti-Arab, anti-Muslim sentiment."

It was also sent to a popular organization, a world tribunal, that has established a **Jury of Conscience** on Iraq ([www.worldtribunal.org](http://www.worldtribunal.org)). The Jury has been listening to testimonies for 2 years in different places in the world, and finished a few days ago in Turkey. Here is an excerpt of their final statement: "The attack on Iraq is an attack on justice, on liberty, on our safety, on our future, on us all" The Bush and Blair administrations blatantly ignored the massive opposition to the war expressed by millions of people around the world. They embarked upon one of the most unjust, immoral, and cowardly wars in history".

## GAY PARADE IN GUADALAJARA, MEXICO

*By: Miguel Contreras - Priest Guide - Guadalajara, Mexico*

The Gay Pride Parade took place in Guadalajara this June 18th. Guadalajara is the second biggest city in Mexico. It was a big party! :-)

The Raelians participated in the parade carrying a banner that read: "THE Raelian Religion, Respect the Sexual Rights of Minorities".

All five of us had a fabulous time passing out flyers for over three hours of continuous fun!.. Roberto, Salvador, Luis, Carlos Roberto and Me, we all passed out over three thousand flyers, with the Act of Apostasy ! Wow!.. all these thousands of gays and lesbians brothers and sisters!. What a colorful and sensual experience!

Many people approached the five of us asking about the flyers, including a Rabbi from a local Jewish Church. (Wondered if he was gay or was just curious.. ) Some of these Jewish Rabbies have heard of the Raelian Movement here too. Most people read about us on our ad that has been appearing in the local newspaper every week..

All in all, it was a wonderful experience; the weather was perfect, and spreading the Message to this very receptive crowd, for the second time, brought joy to the members.

Over 10,000 people attended the parade and the following day, two local newspapers printed the story about the support that we, the Raelians showed for the gay and lesbian community. :-)

What a Joy!  
Viva la diversidad!!

## SEMINARS IN COLOMBIA

*By: Angel Humberto, Assistant to National Guide*

Hello everyone!.. Wow!.. I have no words to tell you the days we shared together, full of happiness and in constant elevation of our consciousness. All the Raelians of Colombia .. We feel soooooo full of love and happiness!!

The seminar took place in the country side property of our Raelian sister and brother Bertha Arbelaez and Oscar Orozco... a place in which everywhere you look, the creation of Elohim is present, in the middle of the valleys, deep in the sierra surrounded by green grass, huge trees, so many flowers a small river passing by... sunflowers everywhere! Looking at the sunrise every morning!.. Perfect scenery for the contemplation... Our so private play ground!.. Bertha and Oscar not only shared their place with us.. they pampered us all at all times.. Thank you so much for all your love...

On the entrance of the property, there is a big sign that reads ""RAELIAN MONASTERY"  
But right underneath you can clearly read : "Nudist Camp"!

This sign has been creating a lot of controversy through out the region, to a point that neighbors have gone to the police and Oscar, who also is the Regional Responsible of Cartagena and Medellin, has been a couple of times to the police station to give explanations.. "it is a private property and I can do whatever I want, he keeps saying" .. The place picks up the attention of everyone not only because of this thing.. Oscar is building in the middle of it, an auditorium for the Raelian Seminars in the form of a mini-embassy!! Oscar and Bertha go walking around the villas side by side.. and with their t-shirts saying : "The 3<sup>rd</sup>. Temple will be build for Elohim" or "Yahweh is alive in the Planet of Elohim. Elohim created humanity"..etc.. they are fantastic!

Norma and Allan the national guide

## **IN MEXICO TOO !**

*by Esteban Hernandez ( on the picture with Norma)*

Hoooolaaa!.. :-D

Sorry but.. better later than never!.. :-S

From March 19th to 27th a Raelian Seminar took place in the beautiful beaches of Mazatlán, Mexico.

It was organized by our National Guide and Bishop Esteban Hernandez, and Priest Rafael Peraza, responsible for Mazatlán.

Our Bishop Norma Toral, was coordinating this happy seminar. 21 Raelians came to the seminar from different states, Mexico City, Zacatecas, Veracruz, Jalisco, Sinaloa and Norma who came from San Francisco, California, U.S.A

The adventure began when everybody arrived to the City and found out that they had to get on a boat to cross the sea and reach a wonderful place called "La Isla de la Piedra" (Island of the Stone). We all had the chance to experience the creation of our beloved Elohim... the opportunity to really be in contact with infinite...

The Island was full of people having fun and sunbathing in the beaches while we, the Raelians, we were enjoying the teachings of our Beloved Prophet under a big white tent, holding, kissing and loving each other.

The light of our Creators, The Elohim, was with us.

One week, the days went by so fast, the time was so short...!

This has been an amazing experience for all those who attended, feeding our consciousness with joy, happiness, love and laughter.

Thanks to our Beloved Prophet for his incredible teachings, thanks to our Creators,

The Elohim for having given us the gift of life.  
There will be many seminars to come!..  
Love to all..
