ADAM AND EVE WERE BLACK

"This is a scoop, I have never told anyone, I couldn't say it until this year, but you should know, Adam and Eve were black"

These were the last words of a short interview that our Beloved Prophet gave at his arrival in Brazzaville to about twenty journalists gathered in the VIP salon of the Maya-Maya airport. The ambiance there was hard to describe after the revelation.

He also said that the best revenge over the colonizers would be to be better than them, especially in science, and it is possible. Especially for the women who were the slaves of the slaves. He gave the example of Dr. Hortense Dodo from Ivory Coast who successfully modified peanuts so

that they don't give allergy anymore to those who were affected before... An example of how science gives love and how African women can be the best at it!

Outside of the airport, a large crowd was gathered and the official Kimbanguist marching band welcomed him playing "Moi y'en a T'aimer" and our Hymn "Elohim". It was so moving... many of us cried of joy...

The Prophet Rael recon it was the best welcome he ever had...

The day after he gave a press conference in front of almost 100 people followed by 6 private interviews....

Here are a few words of what he said:

Congo will forever be the first country where I was officially invited by a President. It has therefore a special place in the heart of the Elohim, just like the African continent has a special place in the heart of the Elohim. Why? One of the reasons, I couldn't reveal it until this year, until this trip to Congo. It is as well a reason of our success in the non-white countries, in Asia, in Africa. Why does the movement develop faster in those countries? Because for the first time, a message is given saying that we have been created at the image of our creators. A few years ago, the Catholic Church dared say that blacks had no soul and that God was white. It tries to get us to forget it today, but we must remind them.

Elohim have 7 races on their planet and they have created 7 races on earth. All races on earth can look up in the sky and feel that they are at the image of their creator. The message of the Elohim gives them back their dignity, their beauty, their majesty, all races. And now what I can say today is that there were a first man and a first woman and that they couldn't be from all 7 races. What I want to reveal today is that they were black. It doesn't mean that they were better than the others, but it is good that you know it.

In the tormented history of Africa, composed with enslavement, tortures, massacres, the worst was bared by the Africans. The message of the Elohim is hope for the African people. The Elohim wish the Embassy to be in Jerusalem... Africa is not far from Jerusalem. If Israel keeps giving us the cold shoulder, the Elohim will be happy to come to Congo, and why not in this area of Congo called the Katanga. It is not random that this country was the first to welcome me, and that my ringleader on this continent, my right hand on this continent, Uriel Nawezy, is a prince descending from the last Katanga's emperor. We hope that one day he will be able to reestablish the Katanga's power. The Raelian movement doesn't participate in politics, unless they are useful to the purpose of our creators.

Each human group must be independent. The problems in Africa all come from the colonialism. None of the actual borders were there before the colonization. With a few strokes of the pen given on a card by the English, French and Belgians, the people is divided in 3... just imagine if the same thing was to happen to Europe... Africans come, and decide to divide France in 3 and make it 3 countries!! There never was genocides before colonization, there were battles, but never were there genocides like Rwanda. Those genocides are the direct result of the colonization. It is urgent to create the United States of Africa.

More and more African countries associate themselves to China and India. Those 3 powers together can very quickly dominate and the old colonizers will become the new 3d world. When this comes to pass I hope that you will be able to help them better than they helped you.

More news from Brazzaville in the next contact.

Before flying to Africa, the Prophet Rael spent a few days in Brussels, to the great pleasure of the local Raelians who could guide him to the best "Mussels and fries" and "waffle" shops. Laughter and pleasure were at the menu.

He also celebrated December 13th in Switzerland before departing under a snow storm. Raelians came from Holland, Germany, France, Italy and of course Switzerland to be with him.

Tsiporah tells us :

When he came to share lunch with us, he told us that he had just watched an interview of Roberto Benigni on TV1 (as a guest of P. Poivre Darvor). He said that he was happy with what he saw, and that he needed it. Indeed, Roberto Benigni said "I love you" to PPDA and insisted with his irresistible talent on the importance of sharing one's love. Our Beloved Prophet told us what an example this man is; that we must tell each other our love for one another, and he told us how much he loved us.

Before the transmissions, he told us his love again, that transmissions are love. By love, we recognize the Elohim; by love the Elohim recognize us.

After the transmissions, the Prophet added: I leave for Africa on Friday. I spend a lot of time teaching people how to be more, but in Africa, they really don't need it. I invite you to do at least once in your life a seminar in Africa, and one in Japan. There is an extraordinary gap between the continents. It would be such a wealth to mix all the people. And most of all, don't believe that it will be inferior in Africa. On the level of being, purity, it is quite superior. America and Europeans want to understand me, Africans want to touch me, it is not necessarily less good!!! It is good to feel. When Africans hear music, they move their feet, they dance. When Occidentals hear music, they ask, who is the author? A complete human is a balance between intellect and feeling."

"The Elohim love you unconditionally, they love with compassion, even if you are not perfect, when you make mistakes, they wish to guide you; if you are perfect, they are happy, if you make mistakes, correct them and grow through the process, they are proud of you.

The greatest gift you can make them, is not that you should love them, but that they may be proud of you."

It was so wonderful to be by his side, to drink from the source, his words, to bath in his love, in the light, and the shine of his childlike look. Thank you Beloved Prophet.

With tenderness

Tsiporah

The evening followed on the mountaintops of Crans-Montana with a dinner and an oriental theme and a show filled with surprises, organized by Valerie...

DECEMBER 13 CELEBRATION ON THE PLANET

178 brothers and sisters did their transmission on our celebration day, 99 of them were from Africa!! The highest number was actually in Congo with 35 transmissions done, only a few days before the arrival of our Beloved Prophet.

They were 20 joining us in South America, including 9 in Peru, 18 both in Asia and Europe, 10 in North America, 9 in Oceania and 4 in the Middle East

SWEDEN

I gave the official letter to request for the Embassy of Elohim to the Swedish government. Now I wait for their reaction... Apart from that we were nine people for a dinner. We also watched and discussed a movie about Intelligent Design.

Love, Kenny

West France

We all gathered round a delicious dinner in a restaurant on a very busy plaza, in the center of Anger.

We were 10 and we used the occasion to do a diffusion by being dressed in white and wearing the symbol in a visible manner. We left around one in the morning.

Bisous to all
Emmanuelle

France – Paris area

There were a dozen of us around Jean Pierre Saulnier to celebrate the gathering of the 13th of December in Paris. Since the show on Canal+ that was shown the night before called "should we clone the Christ?" by Yves Boisset, commented by Remi, where we saw Rael and Brigitte interviewed in Canada, and a Canadian newspaper article on Brigitte and the progress of cloning, we had a discussion around this theme. We could measure the progress of the reflection of many scientists who are almost all for therapeutic cloning and who request a change in the law from August 2004 which criminalizes cloning and people who clone.

Our friend Gael, a person who came to meet us after discovering us on internet, was glad to know that thoughts are not fixed within the Raelian Movement, and that we could serenely discuss, while having sometimes different ideas. With Love

Maryline

Hollande

We met in Utrecht in a medieval looking building near the canal. The arched ceiling and the candles and lights arranged around the room naturally inclined us toward harmony. 12 members of the Movement and 7 new comers were present for this celebration of the 13th of December.

The themes were the values of our philosophy and science. Everyone loved it, and Bart did 7 transmissions at 3pm. There was suppose to be only 4 but the hesitant got motivated by the atmosphere of the teaching. We then gathered around dinner.

Among the 7 persons who did their transmission, 5 are Iranians and live in Holland and in Belgium. The other 2 are from Holland.

Humor was present all day long.

Love

Daniel

(Daniel Mican from Belgium was recently given the responsibility of Holland by Gerard Jeandupeux, since Bart was temporarily less available...already a very beautiful success for Daniel)

Ireland

We had a fantastic gathering in Ireland last nite. During the week I had an email from Yannick Massey a Raelian from Britany in France who now lives in Ireland and who wanted to come to our gathering, it was wonderful news although I could not place him at first but when we met I recalled meeting him in Switzerland with great Joy.

Four of us met in the restaurant in Talbot st., in the center of Dublin.

Moya, Ray, Yannick and my self. It was wonderful and the joy at meeting despite our small number was Fantastic, and we regaled each other with stories of seminars all over Europe and the fun we each had. Moya and Yannick had the best stories about seminars going back over 20 years.

Yannick gave a very moving beginning to the meal when he spoke and invited us to partake of the meal in the spirit of love peace and harmony, although we were only four we were four and that in itself was important to remember and the love and harmony from us went around the room, it was wonderful.

We send you our love and hope that you had a great nite as well.

Deg.

Poland

In Poland, the gathering was in Ostroda – north east – in a region of beautiful lakes. We were 3; one person did his transmission of the cellular plan.

Love

Jacek

Canada, Montreal

Let's celebrate life!!! The celebration of the 13th of December, organized by Samantha Dubrays was under the theme of science,

ecologies and the Messages, in a very nice hotel on the south of Montreal. And why not add an important theme...the one for celebrating life! It was during a very powerful testimony that Daniel Chabot offered to add this theme (see hereunder in the section about our members). This testimony from Daniel Chabot was very touching and certainly linked

back to the opening prayer and the meditation that Jocelyn Chabot led us through, asking us to feel life within everyone of our cells...to

feel our lungs breath...what an hymn to life!!!

The second very intense moment of this celebration was when Carlos, our new Raelian bother did his transmission and recognized the Elohim. And Nicole, our dear continental guide, showed him our love so well when she wished him welcome, no other words were necessary. The love of others, the love of different people but much more...let's encourage each other to be different from us and develop their own difference. Welcome among us dear Carlos!

Franc Blais

Mozambique

Mozambique, a big and beautiful lusophone country which spreads over more than 2000km in the Indian Ocean...and where the beautiful girls of Maputo, the capitol, who love to show their pretty bellybuttons to enchant the eyes of visitors, even the most preoccupied...all that is needed to spread the message of our Beloved Prophet in a party ambiance...

Yes, the party was beautiful: with a dynamic Adamo who already saw a UFO and stayed with me everyday for more than a week, and a

Gabriella who tells me in our first encounter that she doesn't believe in god (which always led to disagreements with her friends) but she know that there is something bigger than us humans...all was there given to have a national guide and his assistant...Thank you Elohim, thank you Beloved Prophet Rael...

A total of 5 TCPs among whom there was one woman. Adamo Charudine was named and intronized as national guide. His assistant is Gabriella Camacho. And the team of the Raelian Movement in Mozambique is therefore created with an administrative bureau composed of 5 members (president, assistant, treasurer, 1st secretary and 2d secretary). The team keeps on getting organized and will find a location for their gathering, a postal address and an email (internet is very expensive here and there are few internet cafes). What a pleasure for me to be a disciple of the Messenger of Infinity...

RAEL OYE! ELOHIM OYE!

RAEL OYE!! ELOHIM OYE!!

Love, lamane

UK Winter Seminar

What a fantastic weekend seminar we had in UK! 26 people from all walks of life gathered at Hall Farm Cottages, in the beautiful countryside of Norfolk in England. Some people came all the way from Finland and the USA. We stayed in cosy and spacious

cottages and the atmosphere was amazing! We had the whole place to ourselves and it was like a mini-Raelian village! The seminar room was decorated with colourful butterflies, shiny symbols and heart&star shaped pebbles. Before everyone arrived, some angels placed small cards with beautiful quotations from our beloved Prophet in each cottage, so when guests waked into their rooms, they would feel the warmth and love surrounding them.....

Friday night started off with a beautiful dinner brought by all the participants...excellent homemade food gave us contented smiles. We were so excited to be together and it was impossible to get enough of each other. You could not throw a brick without hitting a happy Raelian! After dinner, we played funny games and Rowe, one of the top UK DJs, made our disco night a superb one! We played and danced like children and it was as though we were bursting with so much energy!

On the second day, we learnt alot more about each other and ourselves. In one group exercise from Alexandra and Lara, many discovered how talented they were in acting skills and expressing oneself as well to feel the link to the Being and their Artistic parts.

Also, we were amazed at how well we could organise in the little time given, without disagreeing or stressing ourselves. Nobody gave up or limited their potential, rather...we all implicated ourselves and created works of art in harmony. We also proved our ability to produce almost professional level cuisine for dinner when each cabin had to folloow a recipy and create a dish to share with the group! Mmmm...Oh and in the evening, for our Great Pleasure, Joey and Glenn created a Fabulous Philosophical Quiz, hahahaaa the boys against the girls to answer questions from the Messages, Science, History, and a few little Sharades too...Oh what FUN and guess what, the Girls won!!!:-))) hehehe...

On Sunday, Glenn led a serene and heartfelt Contact and there were some tears of happiness in the room. He also did a magnificent presentation on Water Only Fasting with very informing scientific evidence. He has been producing so many insightful presentations to help us all. He always does his best for others and we are so fortunate to have such a dedicated national guide. Emma and myself were also given a chance to do a presentation each on Polyamory and the Secret of Japanese Healthy Eating to Longevity.

At this seminar, people were very active, no one sat passively, we all contributed our unique colour to the group and took part in all activities. We were there to have fun and so we did!

Saori Ford (UK)

Report from Spain

by Eloise, national guide

After the European seminars which took place in Barcelona, people in Spain began to take an interest in the Movement, thanks to a brief program which was broadcasted in one of the Spanish TV channels. The program was based on a female journalist who according to herself "infiltrated" the Movement, and who took images of the seminars with a hidden camera.

The report was not positive, and they used some obscure images taking during the "sensual night", plus they called us "those names" the media is so fond of using towards us.

But, people watching the program were clever enough to see beyond all the slander and they went directly to visit our website to see for themselves what we were about.

In a few days, I got an avalanche of mails from all over Spain, from people who wanted to know more about our philosophy, the Movement, and meet with other raelians. Soon the mails were more than 300 and I could barely keep pace with all of them.

I took over the responsibility for the Spanish Raelian Movement in the middle of this downpour. At first, I didn't quite know how to manage the whole thing. But through all the mails received, a pattern emerged which helped me see which was the course to follow in order to build the Movement here in Spain.

Since people were writing to us from all over the country, it was difficult to have them all come to one single place for a meeting. So, to avoid people having to wait and losing interest until I could go and make a conference in their area, I decided to create a virtual meeting place, a forum on the Internet where I would gather everyone, and from my own home be in touch with everyone at the same time. What a wonderful tool the internet is !!

I created a little forum on the Internet, and invited everyone to join. Soon subscriptions started to come. A few at first, and soon we were growing. Now as I am writing, our Spanish forum is seven weeks old and we already have 102 members.

Then, just a few days ago, thanks to some contacts by Princess Loona, spokesperson for the Spanish Raelian Movement, the same TV channel people, travelled to Switzerland to interview our Beloved Prophet... And two days ago, another short program was broadcasted on the same TV channel. Again not too positive, but... we all know what media people love doing...

Yet, their game plays in our favour because, again we are getting more people writing to us wanting to know more about the movement. In two days, we got 10 more subscribers to our forum, and for the first time, we are starting to have women joining as well, which is very positive.

Last October we had two transmissions in Spain, and for next April, several people are waiting to have their cellular code transmitted.

Slowly but steadily, the Movement is taking shape in Spain. And I intend to keep it going. It is a funny sensation to build a national movement from zero, almost like building a country, with its foundations, its members, its own idiosyncrasy, keeping harmony within

the group, the joy of seeing those who are really like us express themselves, who may be future guides in Spain...

There is also the challenging side... those who slander us, threats, a possible legal procedure against the media, having our families against our ideology... a test to our strength, a chance to discover our weaknesses and grow. And it's been just three months since I started my work in Spain. Imagine how it must have been for Rael, our beloved Prophet, who's been through all the hassles for more than 30 years and never given up. He's my model and inspiration.

Love, Eloise

The Spanish forum can be found at:
<http://es.groups.yahoo.com/group/iberoraelian/>

Korea keeps on the Revolution

Korean raelians had a funny event to promote and support advance of science on stem cell research.

In Korea, stem cell research has emerged as a very hot topics as questions have been raised on the reality of the research of the Korean famous scientist, Dr. Woo Seok Hwang. This issue was reported by worldwide media and the scientific community.

At 1pm on Dec.18, 53 Raelians gathered in front of the World Stem Cell Hub located in the Seoul University Hospital to express their support to Dr Hwang. 11 Female Raelians gave their letters to donate their ovum to Dr Hwang's team. 5

major media came there to cover the event.

It was the coldest day of this winter with 10 degrees below zero centigrade.

But the weather couldn't stop the passion of the Raelian brothers and sisters.

About 60 members from several parts of the country, came to participate to this wonderful event, which was suggested by our Beloved Prophet. After reading a statement and submitting their letters, Raelians

did a parade for an hour giving lots of leaflets to people along the street. After this event, all of Korean raelians felt very strong pride and happiness because we confirmed that raelians could show constant and strong wish to support advance of science when other people felt confusions. The reason is that we know who we are and what we should do.

From Korea
Blue, responsible for demonstration

ABOUT OUR MEMBERS

Let's celebrate life !

Last Sunday, we were invited, a few persons, to celebrate the birthday of Shizue. What an intense moment. For years, our Prophet has told us that our life can end anytime. And then, an event brought us all back to the deep great happiness that we have of being alive. Shizue Kaneko, the assistant of our Beloved Prophet in Canada had a car accident, which caused fractures to her cervical vertebra. Not a scratch, not a bruise, but one inch from death. Marc Rivard, who sees dozens of similar cases in hospital emergencies where he works, confirmed to us that Shizue could have died or worse, could have become quadriplegic like the famous actor Christopher Reeves. But no, she is still here with us. And Sunday she welcomed us at her place. There is no word to express the joy she emanated. I was deeply touched, especially when she thanked us for being present at her 40th birthday. She was shining with happiness, happiness of being alive, being there with us. And it was reciprocal believe me. Shizue was simply shining and her smile was showing us how life is beautiful while so fragile. We are all tightrope walkers, as our Beloved Prophet told us so often and nobody can say when it will end. What a moment of consciousness and happiness it is to share these beautiful instants together. I invite you as well, helped by this beautiful picture of Shizue, to think of her in your prayers and meditations, to help her heal quickly so she'll be like she was before, running and dancing in the Gardens of the Prophet.

Daniel Chabot

David Fofana, named Xciel, from Burkina Faso, singer and musician... has been since last week number one of the top ten of his country...His song that talks about an awakened Africa

Contact 295

was publicized by the SMS of the viewers and his video clip is a great success... a new star among us J ... an other artist who can witness the influence of the teaching of the Prophet Rael to reach success. Thank you David for your talent.
For your info, a seminar dedicated to artists, given by our beloved prophet, is organized in Las Vegas in May. We will give you more information soon.

Daniel Mican, a new Belgian citizen

Daniel MICAN, member of the Raelian Movement who has been living in Belgium for the last 10 years has requested in 2004 the nationality of his adopted country, Belgium. The process, which was supposed to last only 3 months, was ended by a refusal, expressed by the prosecutor of the king from the town of Louvain, because of "heavy facts". It was difficult to know more about those heavy facts, because the file issued to the participant was always empty.

Finally, after a first trial, the info arrives: the refusal was based on a letter coming from the national security, letter in which Daniel MICAN is described as an active member of the dangerous "cult of Rael" and gave against the members of this "cult", grave defamatory accusations generalized like "antidemocratic," and "supporters and teachers of pedophilia"! Surprising, when we know that the Raelian movement denounce pedophilia as a mental problem and it was in fact in Belgium a few years ago that Raelians there created NOPEDO, an association whose goal it was to denounce those kinds of acts committed by Catholic priests (and therefore "teachers"), before the scandal took on global proportions and the pedophile crimes were finally brought to light.

After going 3 times to the first tribunal in Louvain, inspections were done on Daniel and the accusations had to come to the fact and withdrew its complaint. The verdict pronounced the 12th of December 2005 finally gave Belgian nationality to Raelian Daniel. Belgian justice just proved that a member of the Raelian Movement is not dangerous J
